

## AGENDA ITEMS FOR RHMC

1. Update on status of the Radiation Exposure Compensation Act (RECA)
2. The United States Senate passed the RECA expansion SB 3853 by a vote of 69-30.
3. The refusal of the House of Representatives to bring the bill to a vote.

### CALL TO ACTION:

1. Need to reach out to Yvette Harrell who supports getting an expansion of RECA, but only for the uranium workers and not the Downwinders
2. Asking for a bipartisan letter of support from the entire committee requesting that Speaker Johnson bring the RECA bill that was passed in the Senate to the floor for a vote. Our House members say that we have the votes. We also ask that the Republicans on the Committee reach out to the Republican leadership in New Mexico and ask that they publicly support the RECA expansion and contact Speaker Johnson and request that he schedule the bill for a vote.
3. Continuously call Speaker Johnson to ask he pass RECA.
