

# Pattern In New Mexico

Successfully developed and financed ~ 1,600MW of wind and transmission projects

## Broadview Wind | 324 MW

Operating COD: 2017

## Grady Wind | 220 MW

Operating COD: 2019

## Western Spirit Wind | 1,050 MW

Guadalupe, Lincoln, & Torrance, NM

Operating COD: 2021

### TRANSMISSION

155-mile 345kV Developed & constructed by Pattern

## SunZia Wind & Transmission | 3,515 MW

San Miguel, Lincoln, & Torrance, NM

Construction 2023-2026

### TRANSMISSION

SunZia Transmission Project; 500+ mile 525kV HVDC

**\$732 million** CAPITAL COST

**\$18.9 million** PMT. IN LIEU OF TAXES

**\$2.2 billion** TOTAL ECONOMIC IMPACT  
Direct, Indirect & Induced

**\$2 billion** CAPITAL COST

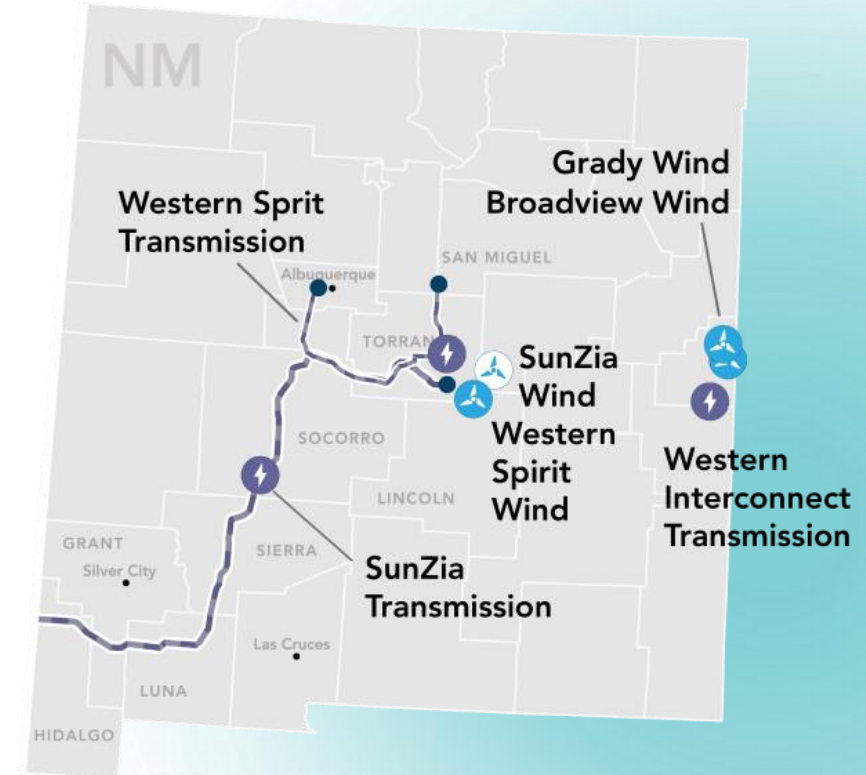

**\$88.3 million** PMT. IN LIEU OF TAXES

**\$5.03 billion** TOTAL ECONOMIC IMPACT  
Direct, Indirect & Induced

**\$11 billion** CAPITAL COST

**\$303 million** PMT. IN LIEU OF TAXES

**\$15.9 billion** TOTAL ECONOMIC IMPACT  
Direct, Indirect & Induced

# SunZia Wind and Transmission

The largest renewable energy infrastructure project in U.S. history

**3,515**

Megawatts of Clean Energy

**3 million+**

Americans' Electricity Needs Served

**2,000**

Construction Jobs

**\$11 billion**

Total Investment

**\$1 billion**

Economic Benefits

to governments, schools, communities, private landowners across Arizona and New Mexico

**550-mile**

Transmission Line Infrastructure

±525 kV high-voltage direct current (HVDC)
