CLIENTS & PROJECTS

Constellation Consulting has worked with the New Mexico Department of Health on a variety of projects since 2018. Our work includes:

- Designing and implementing systems change level work.
- Convening and facilitating workgroups.
- Facilitating strategic planning sessions, and creating strategic and action plans.
- Completing data work, landscape assessments and gap analysis.
- Developing logic models.
- Developing and implementing online training modules (including CEUs)
 - Developing and maintaining the www.nmhealthequity.org website.
 - Managing educational conferences including coordinating event logistics and AV needs; securing and preparing speakers; managing registrations; completing event marketing and engagement communications; and implementing session evaluations and reporting.

Constellation Consulting is working with BeWellNM to implement community engagement activities in Southeastern New Mexico to support new enrollment efforts.

Children, Youth & Families Department

STATE OF NEW MEXICO

Constellation Consulting has managed the CYFD Resource Family Conference including including coordinating event logistics and AV needs; securing and preparing speakers; managing registrations; completing event marketing and engagement communications; managing CEU requests; implementing session evaluations and reporting.

Constellation Consulting provided support for the CMS Accountable Health Communities project including convening of the community-based organization advisory board, managing meeting logistics, completing group marketing and communications, and completing project and financial reporting.

Constellation Consulting worked with NAP to convene their group; develop and launch online training modules; and developing volunteer engagement and capacity building strategies for the group.
