RE:

Summary of Public Education-related Legislation Passed by the Forty-eighth

Legislature, Second Session, 2008 (after executive action)

The enclosed materials represent an overview of 2008 legislation related to public schools, including public school support and other education-related appropriations, all of which have been acted upon by the Governor.

Because it was limited primarily to budget issues, the 2008 legislative session was less hurried than the 2007 session. A total of 107 bills, not including joint resolutions and joint memorials, passed both the House and the Senate. Of those bills, a number addressed education-related issues, including the expansion of the dual credit program and capital outlay funding for public schools. As always, the main emphasis of the 2008 Legislature was to ensure that the schools will have adequate funding to "open the school doors." In addition, despite limited growth in recurring revenue, the Legislature funded an employee compensation package that includes salary increases for all school employees, including an additional increase for the lowest-paid staff, and the FY 09 increase in the employer's contribution to the Educational Retirement Fund.

Table 1 summarizes both the recurring and the nonrecurring public school support and education-related appropriations included in the *General Appropriation Act of 2008* (CS/HB 2a, et al.). In recurring dollars, the Legislature appropriated a grand total of more than \$2.6 billion for FY 09, an increase of approximately \$121.2 million after executive action, or 4.9 percent, over the FY 08 appropriation. The recurring dollars include an appropriated program cost of approximately \$2.4

billion, an increase of \$110.8 million, or 4.8 percent, over the appropriation for the 2007-2008 school year. Included in the program cost are dollars to fund enrollment growth and increases for insurance and fixed costs, as well as:

- an average 2.0 percent salary increase for teachers, instructional staff, and other licensed and non-licensed school employees and an additional 1.0 percent average salary increase for educational assistants; secretarial, clerical and technical assistants; business office support staff; maintenance, custodial, warehouse, and delivery employees; and food service employees, effective July 1, 2008;
- the 0.75 percent increase in the employer's share to the Educational Retirement Fund for FY 09:
- an increase in the school year of one full instructional day;
- an expansion of elementary physical education programs to include approximately 38,600 additional children in kindergarten through sixth grade, which means that in school year 2008-2009, approximately half of our K-6 students will have the benefit of physical education; and
- school district assessment costs, including printing, scoring, and reporting.

Other recurring operational appropriations provide more than \$167.4 million in categorical funds, including over \$111.0 million for public school transportation, which includes money to provide transportation employees with the average 2.0 percent and the average 1.0 percent salary increases provided for other school employees and the 0.75 percent increase in the employer's share to the Educational Retirement Fund. Other recurring operational appropriations include approximately \$2.4 million for supplemental distributions, and a total of approximately \$54.0 million for established funds in current law that provide distributions to school districts and charter schools for instructional material, educational technology, mathematics and science proficiency, school library material, schools in need of improvement, and teacher professional development. In addition, the *General Appropriation Act of 2008* provides approximately \$54.8 million in related education appropriations to the Public Education Department (PED), including over \$17.1 million to fund the agency's operations in FY 09; \$750,000 for the New Mexico Cyber Academy; approximately \$7.2 million for Kindergarten-3 Plus; \$8.5 million for New Mexico PreK programs, plus an additional \$1.0 million in federal Temporary Assistance for Needy Families funds; and \$1.4 million for operational costs incurred by the state's nine Regional Education Cooperatives (RECs).

The General Appropriation Act also includes a total of approximately \$16.3 million in nonrecurring appropriations to PED (after executive action), including nearly \$13.0 million to fund related education initiatives, such as assessment and test development, pre-kindergarten start-up costs, and supplemental funding for school district operational expenses; approximately \$1.7 million in supplemental and deficiency appropriations (\$1.6 million for fuel for school buses and \$62,000 for PED expenses); and a little more than \$1.6 million in data processing funds to support the continued implementation of the Student Teacher Accountability Reporting System (STARS) housed in the department.

Table 2 summarizes additional public school-related appropriations in what is commonly referred to as "HB 2 Junior." Appropriations to PED total approximately \$2.9 million and include additional statewide funding for breakfast for elementary students, anti-obesity programs, and Apprenticeship Assistance. In addition, almost \$1.7 million is appropriated to other state agencies for various public education-related programs, including the New Mexico Outdoor Classroom, the Science Fair, IDEAL-NM (to the Higher Education Department), and teacher professional development.

Table 3 provides a summary of approximately \$39.0 million in direct capital outlay appropriations to PED and other agencies for public school-related projects included in FL/SB 471, *Severance Tax Bond Projects*, with emergency clause (partial veto). Appropriations from severance tax bond receipts total approximately \$19.7 million and include \$4.0 million to purchase school buses statewide and \$3.0 million to construct pre-kindergarten classrooms. General Fund appropriations total approximately \$19.3 million and include \$1.0 million to purchase laptops for 7<sup>th</sup> grade students and \$1.0 million to purchase library books for public and charter schools statewide. An additional \$1.8 million in appropriations for public school-related projects was vetoed. (See Table 3 for specific line-item vetoes.)

Two other capital outlay initiatives were passed by the Legislature and signed by the Governor:

- Upon voter approval at the next general election, CS/SB 333, 2008 Capital Projects G.O. Bond Act, authorizes the issuance and sale of capital project General Obligation bonds for a variety of capital projects and improvements, including a total of \$11.0 million for libraries statewide (\$3.0 million for public school libraries; \$3.0 million for academic libraries; \$3.0 million for public libraries; and \$2.0 million for tribal libraries); and an additional \$8.0 million for capital improvements for constitutional special schools (see Table 4).
- FL/SB 352, Capital Outlay Project Reauthorizations, as amended, with emergency clause, reauthorizes, and in many instances redirects, approximately \$17.4 million in various capital outlay appropriations for schools from previous fiscal years (see Table 5).

Another piece of legislation enacted this session, FL/SB 146, Public School Capital Outlay Omnibus Bill (partial veto), amends the Public School Capital Outlay Act to:

- provide for an offset reduction of a direct legislative capital outlay appropriation made after January 1, 2008 if a capital project is to be jointly used by a school district and another governmental entity;
- authorize the Public School Capital Outlay Council to increase the amount of a grant award by 5.0 percent for a district with an exemplary preventative maintenance program;
- reauthorize the expenditure of \$2.5 million for the Facilities Information Management System through FY 09; and
- appropriate \$3.0 million from the Public School Capital Outlay Fund to the New School Development Fund for expenditure in FY 09 and subsequent years for equipment and other nonoperating costs unique to the first year of operation of new schools.

However, the Governor vetoed another provision of the omnibus bill that would have allowed qualifying school districts that were otherwise unable to generate the funds needed to fund a facility above adequacy to receive, under certain conditions, additional dollars from the Public School Capital Outlay Fund.

In addition to the legislation outlined above, four other bills impacting public education also were signed into law. Three were endorsed by the LESC:

- SB 31, Expand Schools in Dual Credit Program, expands eligibility for the dual credit program to students in state-supported schools and allows students to take dual credit classes during the summer;
- SB 34, as amended, New Mexico School for the Arts Act, allows the creation, upon authorization by the Public Education Commission, of a state-chartered, statewide

- residential high school for the arts to provide intensive pre-professional training for students with demonstrated artistic abilities and potential; and specifies that no state funds may be used to support the residential portion of the program; and
- SB 145, as amended, *Educational Due Process Reimbursements Cap*, changes the cap on a single due process reimbursement to member school districts and charter schools to \$100,000; provides a methodology for members to submit claims; and allows the New Mexico Public School Insurance Authority (NMPSIA) to reimburse member costs on a pro rata basis if there are not enough funds for full reimbursement.

Although not an LESC-endorsed bill, the fourth bill, SB 460, *College and Workplace Readiness Assessments*, supports the LESC's high school redesign initiative passed by the 2007 Legislature. This legislation amends the college and workplace readiness assessment system to:

- require that short-cycle diagnostic assessments in reading, language arts, and mathematics be administered in grades nine and 10;
- require that 11<sup>th</sup> grade students choose one or more of the following:
  - > a college placement assessment;
  - > a workforce readiness assessment; or
  - > "an alternative demonstration of competency using standards-based indicators"; and
- specify that the current 11<sup>th</sup> grade standards-based assessment required as part of the academic assessment program for adequate yearly progress also may serve as the graduation assessment.

The following materials are included for your information:

# SELECTED PUBLIC EDUCTION-RELATED LANGUAGE GENERAL APPROPRIATION ACT OF 2008

(CS/HB 2 et al., as amended) Laws 2008, Chapter 3 (partial veto)

### **OTHER EDUCATION (Section 4, I)**

#### PUBLIC EDUCATION DEPARTMENT:

The general fund appropriation to the public education department for the Family and Youth Resource Act shall fund family and youth services pursuant to the Family and Youth Resource Act.

The internal service funds/interagency transfers appropriations to the public education department include three million dellars (\$3,000,000) for the kindergarten three plus program from the temporary assistance for needy families block grant to New Mexico.

The internal service funds/interagency transfers appropriations to the public education department include one million dollars (\$1,000,000) for the pre-kindergarten program from the temporary assistance for needy families block grant to New Mexico.

The appropriations to the public education department for the pre-kindergarten program shall be used only for direct instruction, transportation and approved administrative costs.

The public education department and the children, youth and families department shall report jointly and quarterly to the legislative education study committee and the legislative finance committee regarding implementation of the pre-kindergarten program. The four quarterly reports will address student progress by department, infrastructure expenditures, teacher and provider qualifications and adequacy of instructional materials.

The general fund appropriation to the public education department for after school enrichment programs includes one million eight hundred thousand dollars (\$1,800,000) for twenty-first century community learning centers statewide.

The general fund appropriation to the public education department for truancy and dropout prevention includes two hundred thirty thousand dollars (\$230,000) to the second judicial district court for truancy court.

Any unexpended balances in the special appropriations to the public education department remaining at the end of fiscal year 2009 from appropriations made from the general fund shall revert to the general fund.

# **HIGHER EDUCATION (Section 4, J)**

#### HIGHER EDUCATION DEPARTMENT:

The general fund appropriation to the policy development and institutional financial oversight program of the higher education department includes seventy five thousand dollars (\$75,000) to

develop a database to provide information to public schools on the outcomes of their students in their first year of college at a New Mexico public postsecondary educational institution.

By September 1, 2008, the higher education department shall report time series data to the office of the governor, public education department, department of finance and administration and legislative finance committee on performance measures and targets for recruitment, enrollment, retention and graduation rates for Native American and Hispanic students. The higher education department shall provide an action plan by institution to achieve targeted results.

### PUBLIC SCHOOL SUPPORT (Section 4, K)

The rate of distribution of the state equalization guarantee distribution shall be based on a program unit value determined by the secretary of public education. The secretary of public education shall establish a preliminary unit value to establish budgets for the 2008-2009 school year and then, upon verification of the number of units statewide for fiscal year 2009 but no later than January 31, 2009, the secretary of public education may adjust the program unit value.

The general fund appropriation to the state equalization guarantee distribution includes thirtynine million one hundred seventy-eight thousand six hundred dollars (\$39,178,600) to provide an average two percent salary increase for all teachers, other instructional staff and other licensed and unlicensed staff, effective July 1, 2008. Prior to the approval of a school district's or charter school's budget, the secretary of public education shall verify that each school district or charter school is providing an average two percent salary increase for all teachers and other licensed school employees and an average two percent salary increase for nonlicensed school employees.

The general fund appropriation to the state equalization guarantee distribution includes sufficient funds to provide an additional one percent average salary increase for educational assistants, secretarial, clerical, and technical assistants; business office support staff; maintenance, custodial, warehouse, and delivery employees; and food service employees. The secretary of public education shall verify that school districts and charter schools have implemented an average two percent salary increase for these public school employees prior to the implementation of the additional one percent average salary increase for these employees.

The secretary of public education, in collaboration with the department of finance and administration, office of educational accountability, shall ensure all teachers have been evaluated under the tiered licensure evaluation system and have the appropriate level of professional competencies. The secretary of public education shall withhold from the public school distribution funding for the minimum salary of any teacher who has not been evaluated.

The general fund appropriation to the state equalization guarantee distribution contains sufficient funding to provide a three-quarter percent increase in the employer contribution to the educational retirement fund.

The general fund appropriation to the state equalization guarantee distribution contains four million eight thousand seven hundred dollars (\$4,008,700) for the increased employer share of retiree healthcare costs contingent on the enactment of Senate Bill 67 or similar legislation of the second session of the forty-eighth legislature. (NOTE: Because the legislation failed to pass, the State Equalization Guarantee distribution for FY 09 will be reduced by the \$4.0 million.)

The general fund appropriation to the state equalization guarantee distribution contains eight million dollars (\$8,000,000) for the second year implementation of elementary physical education for students in kindergarten through sixth grade. After considering those elementary physical education programs eligible for state financial support and the amount of state funding available for elementary physical education, the secretary of public education shall determine the programs and the consequent number of students in elementary physical education that will be used to calculate the number of elementary physical education program units.

The general fund appropriation to the state equalization guarantee distribution contains sufficient funding to increase the school year by one full instructional day which shall not be substituted with an equivalent number of minutes or hours. Prior to the approval of a school district's or charter school's budget, the secretary of public education shall verify that each school district or charter school has provided for one additional full instructional day above the 2007-2008 school year.

For the 2008-2009 school year, the state equalization guarantee distribution contains sufficient funding for school districts to implement a new formula-based program. Those districts shall use current year membership in the calculation of program units for the new formula-based program.

The general fund appropriation to the state equalization guarantee distribution reflects the deduction of federal revenue pursuant to Paragraph (2) of Subsection C of Section 22-8-25 NMSA 1978 that includes payments commonly known a[s] "impact aid funds" pursuant to 20 USCA 7701 et seq., and formerly known as "PL874 funds".

The general fund appropriation to the public school fund shall be reduced by the amounts transferred to the public school fund from the current school fund and from the federal Mineral Lands Leasing Act receipts otherwise unappropriated.

Any unexpended balances in the authorized distributions remaining at the end of fiscal year 2009 from appropriations made from the general fund shall revert to the general fund.

#### Transportation Distribution

The general fund appropriation to the transportation distribution contains nine hundred eight thousand dollars (\$908,000) to provide an average two percent salary increase for transportation employees effective July 1, 2008.

The general fund appropriation to the transportation distribution includes sufficient funds to provide an additional one percent average salary increase for transportation employees. The secretary of public education shall verify that school districts and charter schools have implemented an average two percent salary increase for these public school employees prior to the implementation of the additional one percent average salary increase for these employees.

The general fund appropriation to the transportation distribution includes sufficient funding to provide a three-quarter percent increase in the employer contribution to the educational retirement fund.

#### Indian Education Fund

The general fund appropriation to the public education department for the Indian Education Act includes five hundred thousand dollars (\$500,000) to provide a rural literacy initiative to support after-school and summer literacy block programs for students in kindergarten through eighth grade in schools with a high proportion of Native American students contingent on receipt of two hundred fifty thousand dollars (\$250,000) in matching funds from other than state sources no later than September 30, 2008.

#### FL/SB 471, with emergency clause [Laws 2008, Ch 92 (partial veto)]

#### SEVERANCE TAX BONDS--AUTHORIZATIONS--APPROPRIATION OF PROCEEDS. (Section 1)

- A. The state board of finance may issue and sell severance tax bonds in compliance with the Severance Tax Bonding Act in an amount not to exceed the total of the amounts authorized for purposes specified in this act. The state board of finance shall schedule the issuance and sale of the bonds in the most expeditious and economical manner possible upon a finding by the board that the project has been developed sufficiently to justify the issuance and that the project can proceed to contract within a reasonable time. The state board of finance shall further take the appropriate steps necessary to comply with the Internal Revenue Code of 1986, as amended. Proceeds from the sale of the bonds are appropriated for the purposes specified in this act.
- B. The agencies named in this act shall certify to the state board of finance when the money from the proceeds of the severance tax bonds authorized in this section is needed for the purposes specified in the applicable section of this act. If an agency has not certified the need for the issuance of the bonds for a particular project, including projects that have been reauthorized, by the end of fiscal year 2010, the authorization for that project is void.
- C. Before an agency may certify for the issuance of severance tax bonds, the project must be developed sufficiently so that the agency reasonably expects to:
  - (1) incur within six months after the applicable bonds have been issued a substantial binding obligation to a third party to expend at least five percent of the bond proceeds for the project; and
  - (2) spend at least eighty-five percent of the bond proceeds within three years after the applicable bonds have been issued.
- D. Except as otherwise specifically provided by law:
  - (1) the unexpended balance from the proceeds of severance tax bonds issued pursuant to this act for a project shall revert to the severance tax bonding fund no later than the following dates:
    - (a) for a project for which severance tax bonds were issued to match federal grants, six months after completion of the project;
    - (b) for a project for which severance tax bonds were issued to purchase vehicles, including emergency vehicles and other vehicles that require special equipment; heavy equipment; books; educational technology; or other equipment or furniture that is not related to a more inclusive construction or renovation project, at the end of the fiscal year two years following the fiscal year in which the severance tax bonds were issued for the purchase; and
    - (c) for any other project for which severance tax bonds were issued, within six months of completion of the project, but no later than the end of fiscal year 2012; and
  - (2) all remaining balances from the proceeds of severance tax bonds issued for a project pursuant to this act shall revert to the severance tax bonding fund three months after the latest reversion date specified for that type of project in Paragraph (1) of this subsection, whether or not any of the remaining balances are subject to a contractual obligation to third parties.

- E. Except for appropriations to the capital program fund, money from severance tax bond proceeds provided pursuant to this act shall not be used to pay indirect project costs.
- F. For the purpose of this section, "unexpended balance" means the remainder of an appropriation after reserving for unpaid costs and expenses covered by binding written obligations to third parties.

#### GENERAL FUND AND OTHER FUND APPROPRIATIONS--LIMITATIONS--REVERSIONS. (Section 2)

- A. Except as otherwise specifically provided by law:
  - (1) the unexpended balance of an appropriation made in this act from the general fund or other state fund shall revert no later than the following dates:
    - (a) for a project for which an appropriation was made to match federal grants, six months after completion of the project;
    - (b) for a project for which an appropriation was made to purchase vehicles, including emergency vehicles and other vehicles that require special equipment; heavy equipment; books; educational technology; or other equipment or furniture that is not related to a more inclusive construction or renovation project, at the end of the fiscal year two years following the fiscal year in which the appropriation was made for the purchase; and
    - (c) for any other project for which an appropriation was made, within six months of completion of the project, but no later than the end of fiscal year 2012; and
  - (2) all remaining balances from an appropriation made in this act for a project shall revert three months after the latest reversion date specified for that type of project in Paragraph (1) of this subsection, whether or not any of the remaining balances are subject to a contractual obligation to third parties.
- B. Upon certification by an agency that money from the general fund is needed for a purpose specified in this act, the secretary of finance and administration shall disburse such amount of the appropriation for that project as is necessary to meet that need.
- C. Except for appropriations to the capital program fund, money from appropriations made in this act shall not be used to pay indirect project costs.
- D. Except as provided in Subsection F of this section, the balance of an appropriation made from the general fund shall revert in the time frame set forth in Subsection A of this section to the capital projects fund.
- E. Except as provided in Subsection F of this section, the balance of an appropriation made from other state funds shall revert in the time frame set forth in Subsection A of this section to the originating fund.
- F. The balance of an appropriation made from the general fund or other state fund to the Indian affairs department or the aging and long-term services department for a project located on lands of an Indian nation, tribe or pueblo shall revert in the time frame set forth in Subsection A of this section to the tribal infrastructure project fund.
- G. For the purpose of this section, "unexpended balance" means the remainder of an appropriation after reserving for unpaid costs and expenses covered by binding written obligations to third parties.

#### **ELECTION.** (Section 11)

- A. Bonds issued pursuant to the 2008 Capital Projects General Obligation Bond Act shall be submitted to the registered voters of the state at the general election to be held in November 2008, and, if they receive a majority of all the votes cast thereon at such election, shall take effect upon certification of the state canvassing board announcing the results of such election. No bonds shall be issued or sold under that act until the registered voters of this state have voted upon and approved the bonds and property tax as provided in this section. Any bonds issued under that act shall be issued within thirty months from the date of such election.
- B. The ballots used at the 2008 general election shall contain substantially the following language:

(2)	"The 2008 Capital Projects General Obligation Bond Act authorizes the issuance and sale of library acquisition bonds. Shall the state be authorized to issue general obligation bonds in an amount not to exceed eleven million nineteen thousand dollars (\$11,019,000) to make capital expenditures for academic, public and tribal library acquisitions and provide for a general property tax imposition and levy for the payment of principal of, interest on and expenses incurred in connection with the issuance of the bonds and the collection of the tax as permitted by law?

#### **SENATE MEMORIALS**

- STUDY PRE-APPRENTICESHIP CURRICULUM, Sen. Sanchez, B—requests that PED, HED, the Workforce Solutions Department, the Economic Development Department, the Association of Commerce and Industry, industry advocacy groups, and registered apprenticeship programs study the feasibility of implementing an industry-taught preapprenticeship curriculum in high school career-technical programs; and that the findings and recommendations be presented to the LESC and any other appropriate legislative committee during the 2008 interim. [Identical to HM 46]
- STUDY REGIONAL EDUCATION COOPERATIVES, Sen. Kernan requests that the LESC, PED, and the RECs study the roles, responsibilities and financial requirements of RECs; and that these entities report their findings and recommendations, including recommendations for statutory changes and funding, if necessary, to the LESC by October 2008.
- SM 51a ANABOLIC STEROID ABUSE EDUCATION, Sen. Carraro requests that PED, at the earliest opportunity, develop an educational anabolic steroid abuse prevention program aimed at high school students to teach the dangers of anabolic steroid abuse.
- SM 54 ENHANCE SCHOOL NUTRITION & NM FARMING ECONOMY, Sen. Campos—
  resolves that the Senate have additional New Mexico-grown fruits and vegetables served in
  school meals to enhance students' nutrition and to increase farmers' incomes; requests district
  superintendents and local school boards to emphasize purchasing locally grown foods; and
  encourages school food service directors to find local farmers to supply food for schools.
