

Technical Issues Notice

We apologize for any unexpected technical issues that might occur while streaming standing committee meetings using the Webcast or Zoom options. These streaming options are monitored, and our teams work to resolve technical issues as quickly as possible.

If you experience difficulties accessing the Webcast or Zoom for a standing committee meeting, please wait five (5) minutes before contacting us. Most technical issues are resolved within that time frame. If you need to report an issue, please call 505-986-4685 or 505-986-4600. Your request will be processed upon receipt.

Standing committee meetings are archived with closed captioning within two (2) days of the live meeting. To access archived recordings, click the Webcast tab, then select Recordings from the menu on the left.

Thank you for your cooperation and patience.
