# FORTY-FIFTH LEGISLATURE SECOND SESSION, 2002

Mr. Speaker:

**February 5, 2002** 

Your **CONFERENCE COMMITTEE**, to whom has been referred

# HOUSE APPROPRIATIONS AND FINANCE COMMITTEE SUBSTITUTE FOR HOUSE BILLS 2, 3, 4, 5 AND 6, as amended

has had it under consideration and reports same with recommendation that it DO PASS, amended as follows:

1. The following senate finance committee amendments be **APPROVED**:

Nos. 2, 3 and 4.

2. The following senate finance committee amendment be **DISAPPROVED**:

No. 1.

and that the bill be amended further as follows:

3. On pages 5 through 212, strike Sections 4, 5, 6, 7, 8, and 9 in their entirety and insert in lieu thereof:

"Section 4. **FISCAL YEAR 2003 APPROPRIATIONS**. -- Under guidelines developed by the state budget division, in consultation with the legislative finance committee, each agency for which performance measures are established in this section shall file a report with the state budget division and the legislative finance committee analyzing the agency's performance relative to the performance measures and targets in this section. The reports shall be submitted quarterly for certain performance measures and after the end of fiscal year 2003 for the remaining measures. The state budget division, in consultation with the legislative finance committee, shall develop a list of key performance measures for quarterly reporting. The reports shall compare actual performance for the report period with targeted performance based on the level of funding appropriated. In developing guidelines for the submission of agency performance reports, the state budget division, in consultation with the legislative finance committee, shall establish standards for the reporting of variances between actual and targeted performance levels. The quarterly and year-end reports for the period ending June 30, 2003, shall be filed with the state budget division and the

legislative finance committee on or before September 1, 2003.

It is the intent of the legislature to continue to improve implementation of the Accountability in Government Act by emphasizing measures that are meaningful to the public and measures that cross agency lines by including them in the General Appropriation Act of 2003. The legislature expects implementation of the Accountability in Government Act to improve as additional agencies submit performance-based budget requests and as agencies, the department of finance and administration and the legislative finance committee continue to cooperate on the development of programs, performance measures and targets. For those agencies that have already submitted performance-based-program budgets, the legislature expects continued refinement of measures to improve their consistency, reliability and relevance, and continued emphasis on defining and measuring the constituent activities of a program.

Unless explicitly stated otherwise, each of the program measures and the associated targets contained in this section reflect performance to be achieved for fiscal year 2003. In cases where there are no targets for output, outcome, efficiency or quality measures, agencies are expected to develop baseline data for fiscal year 2003 and to propose targets when submitting budget requests for fiscal year 2004.

In concert with the annual agency strategic planning process required by the state budget division, the state budget division shall require the state agency on aging, human services department, labor department, department of health, and the children, youth and families department to coordinate their strategic plans, including internal and external assessments and development of programs and performance measures.

used for any one community ditch. The state engineer may enter into cooperative agreements with the owners or commissioners of ditch associations to ensure that work is done in the most efficient and economical manner and may contract with the federal government or any of its agencies or instrumentalities that provide matching funds or assistance. No state funds other than loans may be used to meet the acequia's twenty percent share of the total cost of the project.

The appropriations to the irrigation works construction program of the state engineer include (a) grants, in such amounts as determined by the interstate stream commission, for construction, improvement, repair and protection from floods the dams, reservoirs, ditches, flumes and appurtenances of community ditches in the state located on Indian land whether pueblo or reservation; (b) one million five hundred thousand dollars (\$1,500,000) for loans to irrigation districts and soil and water conservation districts for re-loan to farmers for implementation of water conservation improvements; and (c) five hundred thousand dollars (\$500,000) for small loans to acequias and community ditches for construction of improvements.

The appropriation to the irrigation works construction program of the state engineer includes one million five hundred thousand dollars (\$1,500,000) for payments for Pecos river revenue bonds and one hundred fifty thousand dollars (\$150,000) for cooperative efforts in vegetation control on the Pecos river.

The human services department is directed to re-negotiate the managed care contracts to limit the fiscal year 2003 service price increase to four and one-half percent with an estimated savings of two million nine hundred twenty-five thousand dollars (\$2,925,000). The human services department shall introduce a drug formulary in the fee-for-service category that will result in an estimated savings of one million eight hundred thousand dollars (\$1,800,000). The department shall re-negotiate the managed care contracts for fiscal year 2004 prior to January 2003 to allow sufficient time for the changes to be incorporated in the fiscal year 2004 budget. The human services department is not expected to authorize the market basket increase for fiscal year 2003.

In addition to the transfers authorized above, intergovernmental and interagency transfers are authorized and appropriated to the medical assistance division contingent on the approval of a waiver from the federal government allowing revisions to the medical program. Waiver provisions may include changes in benefits, co-payments, employer, enrollee, state financial participation and eligibility up to two hundred percent of the federal poverty level. Fund transfers shall be subject to review and approval by the department of finance and administration and the legislative finance committee. Review of proposed transfers shall include a determination that programs from which transfers are made will not be adversely impacted and that healthcare safety net program and services will not be reduced.

On approval of the commission on higher education, the state budget division of the department of finance and administration may approve increases in budgets of agencies, in this section, with the exception of the policy development and institutional financial oversight program of the commission on higher education, whose other state funds exceed amounts specified. In approving budget increases, the director of the state budget division shall advise the legislature through its officers and appropriate committees, in writing, of the justification for the approval.

Except as otherwise provided, any unexpended or unencumbered balance remaining at the end of fiscal year 2003 shall not revert to the general fund. COMMISSION ON HIGHER EDUCATION:

## (1) Policy development and institutional financial oversight:

The purpose of the policy development and institutional financial oversight program is to provide a continuous process of statewide planning and oversight within the commission's statutory authority for the higher education partners, to ensure both the efficient use of state resources and progress in implementing the public agenda.

The rate of distribution of the state equalization guarantee distribution shall be based on a program unit value determined by the superintendent of public instruction. The superintendent of public instruction shall establish a preliminary unit value to establish budgets for the 2002-2003 school year; and then upon verification of the number of units statewide for fiscal year 2003 but no later than January 31, the superintendent of public instruction may adjust the program unit value.

The general fund appropriation in the state equalization guarantee distribution reflects the deduction of federal revenue pursuant to Paragraph (2) of Subsection C of Section 22-8-25 NMSA 1978 that includes payments commonly known as "impact aid funds" pursuant to 20 USCA 7701 et. seq., formerly known as "PL 874 funds".

The general fund appropriation to the public school fund shall be reduced by the amounts transferred to the public school fund from the current school fund and from the federal Mineral Lands Leasing Act receipts otherwise unappropriated.

Any unexpended or unencumbered balance in the distributions authorized remaining at the end of fiscal year 2003 from appropriations made from the general fund shall revert to the general fund.

Section 7. DATA PROCESSING APPROPRIATIONS. -- The following amounts are appropriated from the computer systems enhancement fund, or other funds as indicated, for the purposes specified. Unless otherwise indicated, the appropriations may be expended in fiscal years 2002 and 2003. Unless otherwise indicated, any unexpended or unencumbered balances remaining at the end of fiscal year 2003 shall revert to the computer systems enhancement fund or other funds as indicated. The department of finance and administration shall allocate amounts from the funds for the purposes specified upon receiving certification and supporting documentation from the requesting agency that identifies benefits that can be quantified and nonrecurring costs and recurring costs for the development and implementation of the proposed system and, for executive agencies, upon receiving certification from the chief information officer that identifies compliance with the information architecture and individual information and communication systems plans and the statewide information technology strategic plan. If the funds are to continue on a project, the documentation shall include certification and a written report by the chief information officer that the project is on schedule, approved project methodology has been followed, independent validation and verification contractor recommendations have been implemented, all funds previously allocated have been expended properly and additional funds are required. All hardware and software purchases funded through the base budget and the information technology funding recommendations shall be procured using consolidated purchasing led by the chief information officer to achieve economies of scale and to provide the state with the best unit price. The state chief information officer shall, no later than July 1, 2002, prepare a statewide architecture plan with input from major stakeholders, determine how the state's existing and proposed computer systems will fit into the plan and provide a five-year strategy for systems to comply with the proposed architecture. Appropriations for any development project shall include a turn-key solution with associated warranty that the state's needs will be met upon implementation and acceptance of the system. The department of finance and administration shall provide a copy of the certification and all supporting documentation to the legislative finance committee.

#### Section 9. CERTAIN FISCAL YEAR 2003 BUDGET ADJUSTMENTS AUTHORIZED. --

- A. As used in this section:
- (1) "budget category" means an item or an aggregation of related items that represents the object of an appropriation. Budget categories include personal services and employee benefits, contractual services, other and other financing uses;
- (2) "budget increase" means an approved increase in expenditures by an agency from a specific source;

		Other	Intrnl Svc		
	General	State	Funds/Inter-	Federal	
Item	Fund	Funds	Agency Trnsf	Funds	Total/Target

- (3) "category transfer" means an approved transfer of funds from one budget category to another budget category, provided that a category transfer does not include a transfer of funds between divisions;
- (4) "division transfer" means an approved transfer of funds from one division of an agency to another division of that agency, provided that the annual cumulative effect of division transfers shall not increase or decrease the appropriation to any division by more than seven and one-half percent;
- (5) "program transfer" means an approved transfer of funds from one program of an agency to another program of that agency, provided that the annual cumulative effect of program transfers shall not increase or decrease the appropriation to any program by more than seven and one-half percent; and
- (6) "federal funds" means any payments by the United States government to state government or agencies except those payments made in accordance with the federal Mineral Lands Leasing Act and except those payments made in accordance with the federal temporary assistance for needy families block grant and the federal Workforce Investment Act of 1998.
- B. Budget adjustments are authorized pursuant to Sections 6-3-23 through 6-3-25 NMSA 1978 for fiscal year 2003.
- C. Except as otherwise provided, all agencies, including legislative agencies, may request category transfers among personal services and employee benefits, other and other financing uses.
- D. An agency with internal service funds/interagency transfers appropriations or other state funds appropriations that collects money in excess of those appropriated may request budget increases in an amount not to exceed four percent of its internal service funds/interagency transfers or other state funds appropriation contained in Section 4 of the General Appropriation Act of 2002.
- E. In order to track the four percent transfer limitation outlined in Subsection D of this section, agencies must report cumulative budget adjustment request totals on each budget adjustment request submitted. The department of finance and administration shall certify agency reporting of these cumulative totals.
- F. In addition to the budget adjustment authority provided in the General Appropriation Act of 2002, the following agencies may request specified budget adjustments:
- (1) the New Mexico compilation commission may request budget increases from other state funds for publishing costs associated with subscriptions, supreme court opinions and other publications;
