12 **BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:**

13 Section 1. **SHORT TITLE.**--This act may be cited as the "General Appropriation Act of 2002".

14 Section 2. **DEFINITIONS.**--As used in the General Appropriation Act of 2002:

15 A. "agency" means an office, department, agency, institution, board, bureau, commission,
16 court, district attorney, council or committee of state government;

17 B. "efficiency" means the measure of the degree to which services are efficient and
18 productive and which is often expressed in terms of dollars or time per unit of output;

19 C. "expenditures" means costs, expenses, encumbrances and other financing uses, other than
20 refunds authorized by law, recognized in accordance with generally accepted accounting principles for the
21 legally authorized budget amounts and budget period;

22 D. "explanatory" means information that can help users to understand reported performance
23 measures and to evaluate the significance of underlying factors that may have affected the reported
24 information;

25 E. "federal funds" means any payments by the United States government to state government or

1 agencies except those payments made in accordance with the federal Mineral Lands Leasing Act;

2 F. "full-time equivalent" or "FTE" means one or more authorized positions that together
3 receive compensation for not more than two thousand eighty-eight hours worked in fiscal year 2003. The
4 calculation of hours worked includes compensated absences but does not include overtime, compensatory
5 time or sick leave paid pursuant to Section 10-7-10 NMSA 1978;

6 G. "general fund" means that fund created by Section 6-4-2 NMSA 1978 and includes federal
7 Mineral Lands Leasing Act receipts and those payments made in accordance with federal block grants and
8 the federal Workforce Investment Act, but excludes the general fund operating reserve and the
9 appropriation contingency fund;

10 H. "interagency transfers" means revenue, other than internal service funds, legally
11 transferred from one agency to another;

12 I. "internal service funds" means:

13 (1) revenue transferred to an agency for the financing of goods or services to another
14 agency on a cost-reimbursement basis; and

15 (2) unencumbered balances in agency internal service fund accounts appropriated by the
16 General Appropriation Act of 2002;

17 J. "other state funds" means:

18 (1) unencumbered, nonreverting balances in agency accounts, other than in internal
19 service funds accounts, appropriated by the General Appropriation Act of 2002;

20 (2) all revenue available to agencies from sources other than the general fund,
21 internal service funds, interagency transfers and federal funds; and

22 (3) all revenue, the use of which is restricted by statute or agreement;

23 K. "outcome" means the measure of the actual impact or public benefit of a program;

24 L. "output" means the measure of the volume of work completed, or the level of actual
25 services or products delivered by a program;

2 program;

3 N. "program" means a set of activities undertaken in accordance with a plan of action
4 organized to realize identifiable goals and objectives based on legislative authorization;

5 O. "quality" means the measure of the quality of a good or service produced and is often an
6 indicator of the timeliness, reliability or safety of services or products produced by a program;

7 P. "revenue" means all money received by an agency from sources external to that agency, net
8 of refunds and other correcting transactions, other than from issue of debt, liquidation of investments
9 or as agent or trustee for other governmental entities or private persons;

10 Q. "target" means the expected level of performance of a program's performance measures; and

11 R. "unforeseen federal funds" means a source of federal funds or an increased amount of
12 federal funds that could not have been reasonably anticipated or known during the second session of the
13 forty-fifth legislature and, therefore, could not have been requested by an agency or appropriated by the
14 legislature.

15 Section 3. GENERAL PROVISIONS.--

16 A. Amounts set out under column headings are expressed in thousands of dollars.

17 B. Amounts set out under column headings are appropriated from the source indicated by the
18 column heading. All amounts set out under the column heading "Internal Service Funds/Interagency
19 Transfers" indicate an intergovernmental transfer and do not represent a portion of total state
20 government appropriations. All information designated as "Totals" or "Subtotals" are provided for
21 information and are not appropriations.

22 C. Amounts set out in Section 4 of the General Appropriation Act of 2002, or so much as may
23 be necessary, are appropriated from the indicated source for expenditure in fiscal year 2003 for the
24 objects expressed.

25 D. Unencumbered balances in agency accounts remaining at the end of fiscal year 2002 shall

1 revert to the general fund by October 1, 2002, unless otherwise indicated in the General Appropriation
2 Act of 2002 or otherwise provided by law.

3 E. Unencumbered balances in agency accounts remaining at the end of fiscal year 2003 shall
4 revert to the general fund by October 1, 2003, unless otherwise indicated in the General Appropriation
5 Act of 2002 or otherwise provided by law.

6 F. The state budget division shall monitor revenue received by agencies from sources other
7 than the general fund and shall reduce the operating budget of any agency whose revenue from such sources
8 is not meeting projections. The state budget division shall notify the legislative finance committee of
9 any operating budget reduced pursuant to this subsection.

10 G. Except as otherwise specifically stated in the General Appropriation Act of 2002,
11 appropriations are made in that act for the expenditures of agencies and for other purposes as required
12 by existing law for fiscal year 2003. If any other act of the second session of the forty-fifth
13 legislature changes existing law with regard to the name or responsibilities of an agency or the name or
14 purpose of a fund or distribution, the appropriation made in the General Appropriation Act of 2002 shall
15 be transferred from the agency, fund or distribution to which an appropriation has been made as required
16 by existing law to the appropriate agency, fund or distribution provided by the new law.

17 H. In August, October, December and May of fiscal year 2003, the department of finance and
18 administration, in consultation with the staff of the legislative finance committee and other agencies,
19 shall prepare and present revenue estimates to the legislative finance committee. If these revenue
20 estimates indicate that revenues and transfers to the general fund, excluding transfers to the general
21 fund operating reserve, the appropriation contingency fund or the state-support reserve fund are not
22 expected to meet appropriations from the general fund as of the end of fiscal year 2003, then the
23 department shall present a plan to the legislative finance committee that outlines the methods by which
24 the administration proposes to address the deficit.

25 I. Pursuant to Sections 6-3-23 through 6-3-25 NMSA 1978, agencies whose revenue from

1 unforeseen federal funds, state board of finance loans, revenue appropriated by other acts of the
2 legislature, or gifts, grants, donations, bequests, insurance settlements, refunds, or payments into
3 revolving funds exceeds specifically appropriated amounts may request budget increases from the state
4 budget division. If approved by the state budget division, such money is appropriated. In approving a
5 budget increase from unforeseen federal funds, the director of the state budget division shall advise the
6 legislative finance committee as to the source of the federal funds and the source and amount of any
7 matching funds required.

8 J. For fiscal year 2003, the number of permanent and term full-time-equivalent positions
9 specified for each agency shows the maximum number of employees intended by the legislature for that
10 agency, unless another provision of the General Appropriation Act of 2002 or another act of the second
11 session of the forty-fifth legislature provides for additional employees.

12 K. Except for gasoline credit cards used solely for operation of official vehicles and
13 telephone credit cards used solely for official business, none of the appropriations contained in the
14 General Appropriation Act of 2002 may be expended for payment of credit card invoices.

15 L. To prevent unnecessary spending, expenditures from the General Appropriation Act of 2002
16 for gasoline for state-owned vehicles at public gasoline service stations shall be made only for
17 self-service gasoline; provided that a state agency head may provide exceptions from the requirement to
18 accommodate disabled persons or for other reasons the public interest may require.

19 M. When approving operating budgets based on appropriations in the General Appropriation
20 Act of 2002, the state budget division is specifically authorized to approve only those budgets that
21 are in accordance with generally accepted accounting principles for the purpose of properly classifying
22 other financing sources and uses, including interfund, intrafund and interagency transfers.

23 Section 4. FISCAL YEAR 2003 APPROPRIATIONS.--Under guidelines developed by the state budget
24 division, in consultation with the legislative finance committee, each agency for which performance
25 measures are established in this section shall file a report with the state budget division and the

1 legislative finance committee analyzing the agency's performance relative to the performance measures and
2 targets in this section. The reports shall be submitted quarterly for certain performance measures and
3 after the end of fiscal year 2003 for the remaining measures. The state budget division, in consultation
4 with the legislative finance committee, shall develop a list of key performance measures for quarterly
5 reporting. The reports shall compare actual performance for the report period with targeted performance
6 based on the level of funding appropriated. In developing guidelines for the submission of agency
7 performance reports, the state budget division, in consultation with the legislative finance committee,
8 shall establish standards for the reporting of variances between actual and targeted performance levels.
9 The quarterly and year-end reports for the period ending June 30, 2003, shall be filed with the state
10 budget division and the legislative finance committee on or before September 1, 2003.

11 It is the intent of the legislature to continue to improve implementation of the
12 Accountability in Government Act by emphasizing measures that are meaningful to the public and measures
13 that cross agency lines by including them in the General Appropriation Act of 2003. The legislature
14 expects implementation of the Accountability in Government Act to improve as additional agencies submit
15 performance-based budget requests and as agencies, the department of finance and administration and the
16 legislative finance committee continue to cooperate on the development of programs, performance measures
17 and targets. For those agencies that have already submitted performance-based-program budgets, the
18 legislature expects continued refinement of measures to improve their consistency, reliability and
19 relevance, and continued emphasis on defining and measuring the constituent activities of a program.

20 Unless explicitly stated otherwise, each of the program measures and the associated targets
21 contained in this section reflect performance to be achieved for fiscal year 2003. In cases where there
22 are no targets for output, outcome, efficiency or quality measures, agencies are expected to develop
23 baseline data for fiscal year 2003 and to propose targets when submitting budget requests for fiscal year
24 2004.

25 In concert with the annual agency strategic planning process required by the state budget
