

## **FISCAL IMPLICATIONS**

There are no direct fiscal implications in SJM 13.

## **SIGNIFICANT ISSUES**

The NMDA offered a list of current activities in support of New Mexico's chile industry:

- Provides staff support and expertise to wholesalers and retailers (including growers, packer/shippers, processors, grocery stores, food service suppliers, and restaurants) of New Mexico chile to conduct promotional campaigns.
- Offers the NEW MEXICO--Grown with Tradition® and NEW MEXICO--Taste the Tradition® brand to be used on product packaging, promotional materials, and advertisements.
- Administers and enforces the New Mexico Chile Advertising Act.
- Provides support to the New Mexico chile commission as mandated by the Commodity Commission Act.
- Other chile projects funded through the NMDA include:
  - Exploring new strategies in green chile market development and promotion,
  - Protecting and maintaining part of New Mexico's heritage through preserving landrace chile varieties,
  - Promoting New Mexico processors and growers of chile and chile products to the food and beverage industry,
  - Supporting industry participation in international produce tradeshow, and
  - Evaluating and developing a chile certification program.

The TD noted the importance of the chile industry to New Mexico and offered its support to work with the other agencies in keeping with the TD's strategic plan.

## **ADMINISTRATIVE IMPLICATIONS**

The TD requested further specificity and direction in the type of assistance described in the memorial. The NMDA notes that the memorial provides an additional opportunity to collaborate with other agencies and all parties to assess the future viability of the state's chile industry.

## **DUPLICATION**

SJM 13 duplicates HJM 20.

## **WHAT WILL BE THE CONSEQUENCES OF NOT ENACTING THIS BILL**

Agencies will work to promote this industry in their own ways and without a formal mechanism to report to the Legislature on recommendations for the industry.
