network or software application service of the transportation network company if the motor vehicle operated by the driver to provide transportation services:

(1) is not in compliance with all federal, state and local laws concerning the operation and maintenance of the motor vehicle;

(2) has fewer than four doors;

(3) is designed to carry more than eight passengers, including the driver; or

(4) is a farm tractor, mobile home, recreational vehicle, semitractor, semitrailer, trailer, bus, motorcycle or tow car.

B. A transportation network company shall inspect or cause to be inspected every motor vehicle used by a driver to provide transportation services before allowing the driver to use the motor vehicle to provide transportation services and not less than once each year thereafter.

C. The inspection required by Subsection B of this section shall include an inspection of the foot and emergency brakes, steering, windshield, rear window, other glass, windshield wipers, headlights, taillights, turn indicator lights, braking lights, front seat adjustment mechanism, doors, horn, speedometer, bumpers, muffler, exhaust, tires, rearview mirrors and safety belts of the vehicle to ensure the proper functioning of each component.

D. The public regulation commission shall promulgate rules and regulations to determine compliance with the provisions of this section."
