10 AN ACT

11 RELATING TO NEWBORN INFANT HEALTH; ADDING ECHOCARDIOGRAMS AND
12 ELECTROCARDIOGRAMS TO THE REQUIRED TESTS FOR NEWBORN INFANTS
13 WHO ARE AT HIGHER RISK OF CONGENITAL HEART DISEASE.
14

15 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

16 SECTION 1. Section 24-1-6 NMSA 1978 (being Laws 1973,
17 Chapter 359, Section 6, as amended) is amended to read:

18 "24-1-6. TESTS REQUIRED FOR NEWBORN INFANTS.--

19 A. The department shall adopt screening tests for
20 the detection of congenital diseases that shall be given to
21 every newborn infant, except that, after being informed of the
22 reasons for the tests, the parents or guardians of the newborn
23 child may waive the requirements for the tests in writing. The
24 screening tests shall include at a minimum:

- 25 (1) 3-methylcrotonyl-CoA deficiency;

- 1 (2) 3-OH 3-CH₃ glutaric aciduria;
- 2 (3) argininosuccinic acidemia;
- 3 (4) mitochondrial acetoacetyl-CoA thiolase
- 4 deficiency;
- 5 (5) biotinidase deficiency;
- 6 (6) carnitine uptake defect;
- 7 (7) citrullinemia;
- 8 (8) congenital adrenal hyperplasia;
- 9 (9) congenital hypothyroidism;
- 10 (10) cystic fibrosis;
- 11 (11) galactosemia;
- 12 (12) glutaric acidemia type I;
- 13 (13) Hb S/beta-thalassemia;
- 14 (14) hearing deficiency;
- 15 (15) homocystinuria;
- 16 (16) isovaleric acidemia;
- 17 (17) long-chain L-3-OH acyl-CoA dehydrogenase
- 18 deficiency;
- 19 (18) maple syrup urine disease;
- 20 (19) medium chain acyl-CoA dehydrogenase
- 21 deficiency;
- 22 (20) methylmalonic acidemia;
- 23 (21) multiple carboxylase deficiency;
- 24 (22) phenylketonuria;
- 25 (23) propanic acidemia;

- 1 (24) sickle cell anemia;
2 (25) trifunctional protein deficiency;
3 (26) tyrosinemia type I;
4 (27) very long-chain acyl-CoA dehydrogenase
5 deficiency; and

6 (28) critical congenital heart disease:
7 (a) by means of a test performed using a
8 pulse oximeter before the newborn infant is discharged from the
9 hospital or birthing facility where the newborn infant was
10 born. For the purposes of this ~~[paragraph]~~ subparagraph,
11 "pulse oximeter" means a device that measures the oxygen
12 saturation of arterial blood; and

13 (b) by means of an echocardiogram and
14 electrocardiogram if the newborn infant has a familial history
15 of congenital heart disease or if either of the newborn
16 infant's biological parents report that they: 1) have ever
17 fainted, passed out or had an unexplained seizure suddenly and
18 without warning, especially during exercise; 2) have ever had
19 exercise-related chest pain or shortness of breath; 3) are
20 related to someone who has died of a heart problem or an
21 unexpected sudden death before the age of fifty, including a
22 death from drowning, an unexplained car accident or sudden
23 infant death syndrome; or 4) are related to someone with heart-
24 related issues or anyone younger than fifty years old who has a
25 pacemaker or implantable defibrillator. If a facility lacks

1 the equipment or staff to perform these tests, the facility
2 shall provide to the newborn infant's parents a referral to
3 receive an echocardiogram and electrocardiogram upon discharge.

4 B. Upon the later of either January 1, 2011 or when
5 the secretary finds that these screening tests are reasonably
6 available, the department shall adopt screening tests for the
7 detection of the following genetic diseases that shall be given
8 to every newborn infant; except that, after being informed of
9 the reasons for the tests, the parents or guardians of the
10 newborn child may waive the requirements of the tests in
11 writing. The screening tests shall include:

12 (1) acid maltase deficiency or glycogen
13 storage disease type II;

14 (2) globoid cell leukodystrophy;

15 (3) Gaucher's disease;

16 (4) Niemann-Pick disease; and

17 (5) Fabry disease.

18 C. In determining which other congenital diseases
19 to screen for, the secretary shall consider the recommendations
20 of the New Mexico pediatric society [of] and the American
21 academy of pediatrics.

22 D. The department shall institute and carry on such
23 laboratory services or may contract with another agency or
24 entity to provide such services as are necessary to detect the
25 presence of congenital diseases.

1 E. The department shall, as necessary, carry on an
2 educational program among physicians, hospitals, public health
3 nurses and the public concerning congenital diseases.

4 F. The department shall require that all hospitals
5 or institutions having facilities for childbirth perform or
6 have performed screening tests for congenital diseases on all
7 newborn infants except if the parents or guardians of a child
8 object to the tests in writing.

9 G. For the purposes of this section:

10 (1) "echocardiogram" means a test that uses
11 ultrasound to detect heart defects, assess heart function and
12 evaluate congenital anomalies; and

13 (2) "electrocardiogram" means a test that
14 measures the heart's electrical activity to aid with the
15 diagnosis of arrhythmias or other heart issues."
