SUMMARY

Synopsis of SFC Substitute for Senate Bill 425

The Senate Finance Committee Substitute for Senate Bill 425 (SB425) reauthorizes 423 capital projects authorized in previous years from various funds. Reauthorizations of capital outlay projects range from changing the administering agency or the original purpose of the project, extending the reversion date, or expanding the purpose of the original project. (List of reauthorizations attached.)

This bill contains an emergency clause and would become effective immediately on signature by the governor.

FISCAL IMPLICATIONS

SB425 reauthorizes projects funded with severance tax bonds, the general fund, and other state funds. The reauthorizations of funds contained in this bill do not require new capacity and are a nonrecurring expense to the general fund, severance tax bonding fund, or other state funds. Any unexpended balances remaining at the end of the fiscal year as designated in the bill shall revert to the originating fund three months after the reversion date.

Section 2(C) of the bill provides the balance of appropriations made from the general fund or other state funds to the Indian Affairs Department or the Aging and Long-Term Services Department for a project located on lands of an Indian nation, tribe, or pueblo shall revert to the tribal infrastructure project fund.

For the reauthorizations contained in this bill, "unexpended balance" is defined as the remainder of an appropriation after reserving for unpaid costs and expenses covered by binding, written obligations to third parties.

SIGNIFICANT ISSUES

Reauthorized projects in the bill were originally appropriated between 2018 and 2024. Table 1 demonstrates the purpose(s) for which projects in SB425 are reauthorized:

Table 1. Purpose of Reauthorizations in SB425

No. of Projects	Reauthorization Purpose
2	Change Agency
1	Change Agency and Change or Expand Purpose
11	Change Agency; Change/Expand Purpose and Extend
37	Change or Expand Purpose
315	Extend Time
57	Extend Time and Change of Purpose
423	TOTAL

The number of projects proposed for reauthorization in SB425 far exceeds the number reauthorized by the Legislature in 2023 and 2024, when 299 and 253 projects were approved, respectively. The number of reauthorized projects included in the 2023 bill already represented a near doubling of reauthorizations over 2022. Balances on the projects included in SB425 are estimated to total \$262.7 million as of January 2025. As in past years, the vast majority of reauthorizations were requested for extensions of time. About 60 of the 421 reauthorizations are for statewide projects; the other roughly 360 are for local projects.

The need for expenditure extensions may reflect projects that were not ready to start at the time of appropriation or may have been delayed due to labor and supply shortages and cost escalations. Reauthorization requests from state agencies and higher education institutions require approval by the Department of Finance and Administration before inclusion in the bill. The project sponsor approves local reauthorization requests.

The reauthorization process allowing for a change of purpose or time extension for capital funds without thorough legislative review perpetuates common problems with capital projects, including lack of planning and prioritization, piecemeal funding, and low investment by grantees in efficiently completing projects.

ADMINISTRATIVE IMPLICATIONS

The state agencies, state institutions, and tribal institutions to which bond proceeds are directed are responsible for monitoring the projects funded within the bill to ensure compliance with the New Mexico Constitution and laws. The oversight by the agencies includes all financial transactions and reporting.

WHAT WILL BE THE CONSEQUENCES OF NOT ENACTING THIS BILL

Funds authorized to projects requesting time extensions with 2024 reversion dates would revert to the originating funds. Funds for projects requesting reauthorization for a change of purpose or change of agency are unlikely to proceed and would revert at the date specified in the previous legislative authorization.
