Every Student • Every Region • Every Day

New Mexico's Regional Education Cooperatives

Collaborating for ALL Kids!

Vision: Every Student • Every Region • Every Day

Mission: To collaboratively link state, federal, and regional education initiatives to increase access quality programs and improve outcomes for all students.

Desired Outcomes: Appropriated base funding to each Regional Education Service Cooperative to assist in providing:

- Effective, Efficient, and Equitable use of funds to support systemic delivery and support of state and federal initiatives;
- Braid initiatives from all NM PED departments to deliver a message of support and consistency; and,
- Provide regional professional development, in alignment with local, state and federal initiatives that are timely, consistent, and on-going so that internal capacity is developed and sustained in every district.

Historically:

In 1984, under SBE Regulation No. 84.6, the New Mexico State Board of Education had a vision to coordinate supports and services in order to leverage funds and ensure small rural districts had access to high quality program supports, services, and professional development. The regulation was written to establish Regional Cooperative Centers and then was modified in 1993 by the New Mexico State Legislature to create Regional Education Cooperatives.

In the beginning, RECs received special education funding to deliver training, technical assistance, and support to districts in meeting the state and federal students with disabilities guidelines and laws. Through a strong REC partnership, districts received training and support in the SAT process, Positive Behavior Intervention Support system, Least Restrictive Environment and Transition, and the implementation of the Three-Tiered Licensure system.

In 2006, NM legislature approved the first REC appropriation of about \$103,000 to each REC. This provided approximately 50% of operating costs and has not been adjusted since that time.

BUDGET REQUEST PER REC:

| FTE | POSITION (**Includes Salary & Benefits) | AMOUNT |
|---|--|------------------|
| 3.0 | Administrative Support (i.e. Exec. Director, Business Manager, Administrative Assistant); costs, including benefits. Infrastructure Cost (i.e. facility, utilities, audit, vehicle, technology, etc.) | \$300,000 |
| SERVICE AGENCY FINANCIAL REQUIREMENT | | \$300,000 |

Current Level of Financial Support to Regional Education Cooperatives,
~ \$103,000 (SY 2006 through current)

Why Change: It is time for us to respect the path we've been on, recognize the shifts that need to occur, and embrace the changes that will produce positive outcomes for all students. Understanding the challenges, we are facing as we work to implement initiatives, we believe a more efficient system of delivery for professional development is a critical component to supporting all districts, especially our state's small rural districts where one individual has to wear a multitude of "hats." The initiatives launched in our state are exciting and have the potential to create a learning system of excellence in New Mexico. We are committed to this vision of excellence for all students and are eager to work collaboratively to ensure its reality.

PROPOSAL OF SUPPORT

NM PED

- Establishes State Level Direction/Initiatives

LOCAL GOVERNING COUNCIL

- Provides Local Direction & Oversight

NM Regional Education Service Cooperatives (Educational Service Agencies)

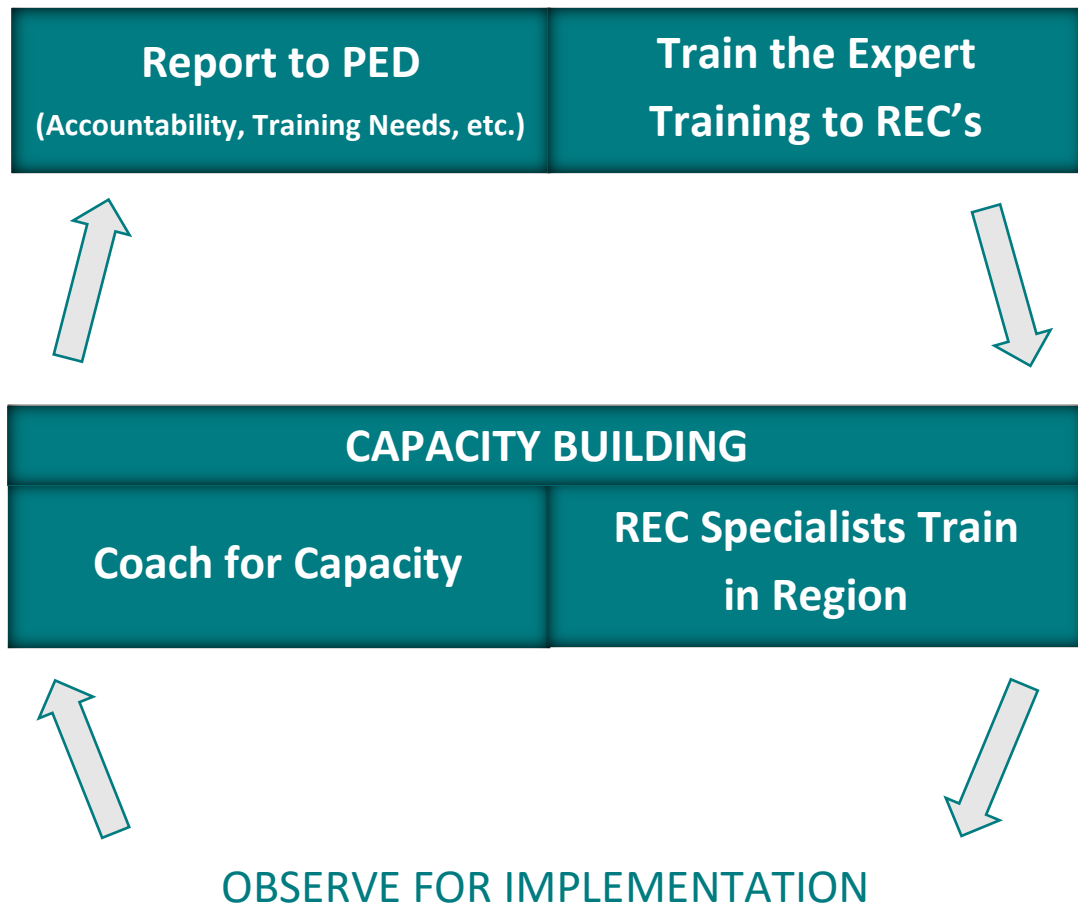

STATE / FEDERAL INITIATIVES

- Receive Train the Experts training from NM PED &/or company selected through RFP process.
- Schedule and Provide training in region.
- Schedule and Provide follow-up training and coaching to districts in region.
- Accountability to State

LOCAL INITIATIVES & SUPPORT

- Provide training, support, follow-up and coaching based on identified needs of member District Superintendents.
- Coordinate Services (i.e. technology, ancillary, etc.)
- Provide Technical Assistance in support of programs

NMREC Cycle of Delivery for Professional Development

BENEFITS

BENEFITS TO PED

- Regionalized and cost-effective system of delivery to support initiatives in a consistent manner – a systems approach.
- Efficient use of staff by targeting training and supports to ten RECs as opposed to 89 districts.
- Every district will be invited to participate in regional trainings.
- Consistent delivery of professional development throughout every region of the state.
- Tight accountability to deliverables and outcomes.
- Systemic support to every district.
- Dollars targeted to classroom supports will improve longevity of implementation success.

BENEFITS TO ALL DISTRICTS

- Local control and autonomy to meet the needs of the district.
- Coordinated and collaborative partnerships with already established agencies (i.e. CYFD, District Courts, Educational Support Center, Northern Network, etc.) to provide comprehensive services in the region.
- Regionalized delivery system increases timeliness of information and support.
- Reduced travel costs and time away from district for staff.
- Response to needs increased with regional “experts” who have a smaller geographic region to support.
- Regionalized delivery system allows job embedded professional development and follow-up.
- Specific, differentiated, and targeted support in classrooms to support teacher effectiveness & student learning.
- Consistent trainers who can draw on established relationships to implement change.
- Ensures small districts have access to same resources as larger districts.
- Systemic support.

BENEFITS TO TAXPAYERS

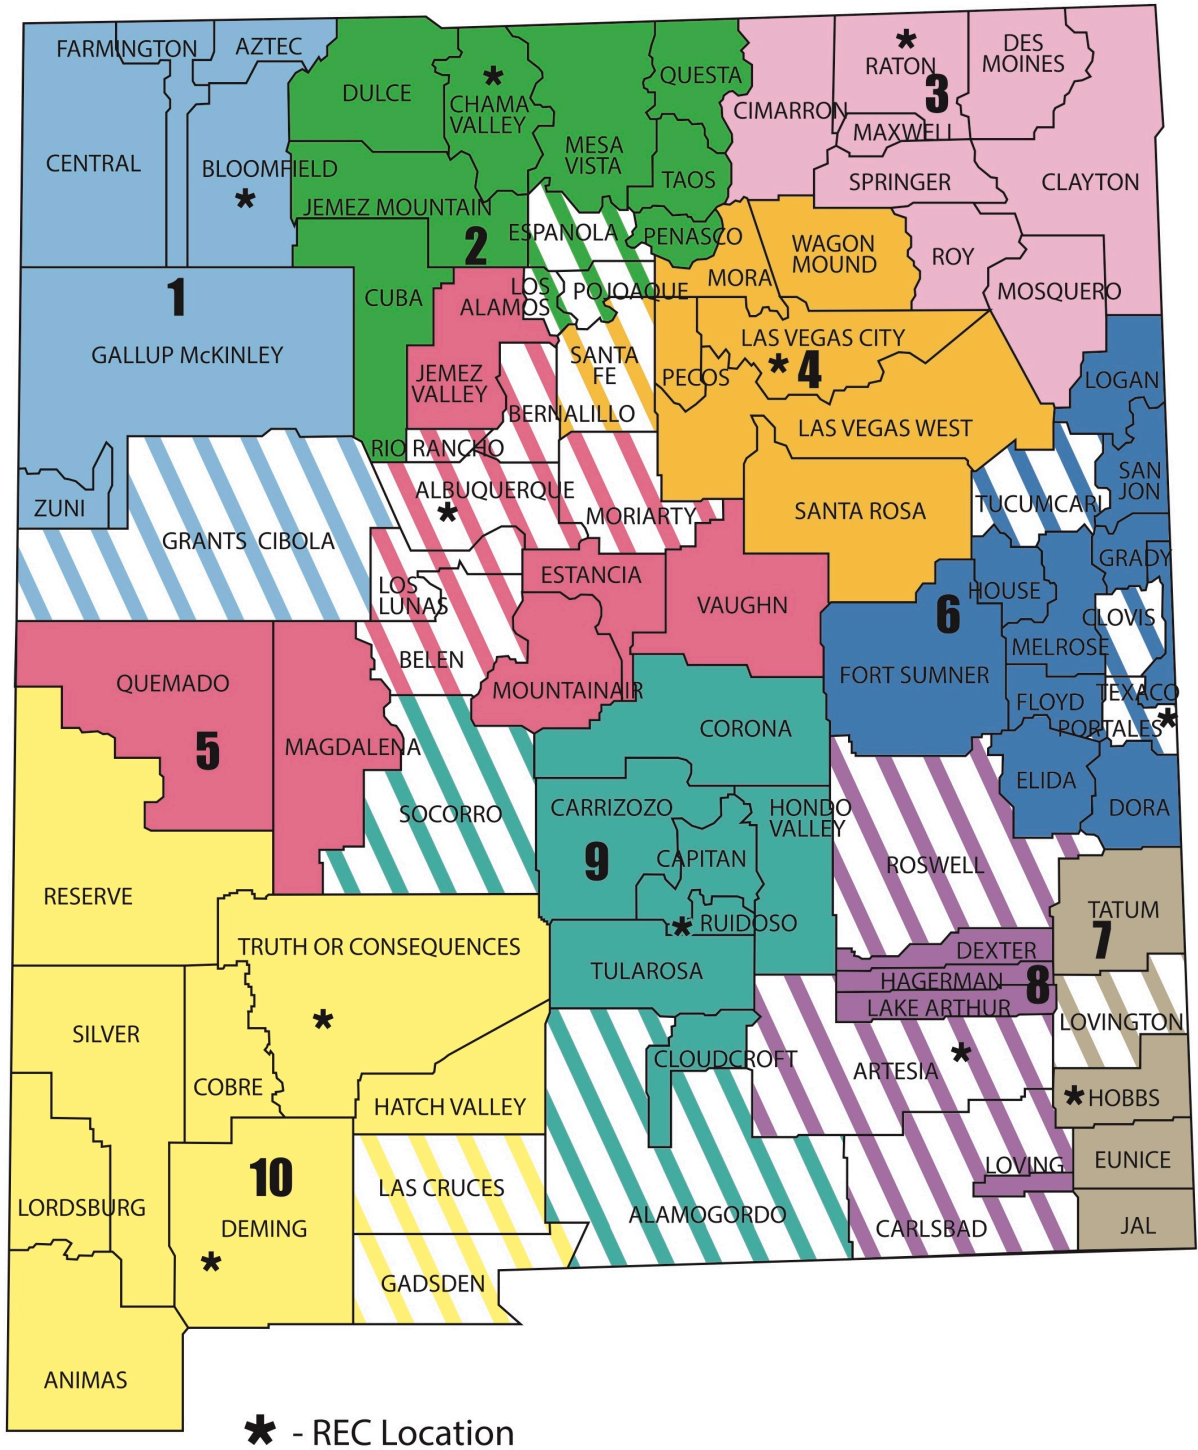

- Greater return on investment. By investing in each region, internal capacity will be developed and balanced throughout the entire state so that every district has the systemic supports needed to improve outcomes for their kids.
- Leveraging of funds to maximize and provide for equitable access to supports.
- Efficient use of funds through economies of scale. By consolidating funds, more regions and districts will have access to high quality professional development and technical assistance in a timely and on-going basis.
- Local control and autonomy to align resources with needs.
- Assurance of implementation and support of education initiatives through strong accountability.
- Systemic support to all stakeholders.

BENEFITS TO KIDS

- Effective teachers in every classroom because of regionalized supports.
- Increased dollars directly supporting classroom systems will improve achievement.
- Improved outcomes because of more directed supports to the classroom.

ABOUT THE ASSOCIATION

The New Mexico Regional Education Cooperatives Association (NMRECA) is composed of ten Regional Education Cooperatives that are located throughout New Mexico supporting 68 school districts, charter schools and state-supported schools. The NMRECA envisions a system of regional and statewide collaboration ensuring all New Mexico children, families, schools, and communities receive high-quality and comprehensive education and health services. NMRECA was organized in 1997 by the Executive Directors of the regional education cooperatives. NMRECA is affiliated with the NM Coalition of Educational Leaders (NMCEL), Association of Educational Service Agencies (AESAs), Association of School Business Officials (ASBO), Association for Supervision and Curriculum Development (ASCD), and National Staff Development Council.

ABOUT THE COOPERATIVES

In 1984, the New Mexico State Board of Education established Regional Center Cooperatives (RCCs) under SBE Regulation No. 84.6. In 1993, the New Mexico State Legislature created Regional Education Cooperatives, Act 22-2B-1 to 22-2B-6, NMSA 1978, as "state agencies administratively attached to the Public Education Department". Unlike educational service agencies in other states, Regional Education Cooperatives (RECs) receive minimal direct, state funding to support the programs and services they provide. Their existence and success depend upon providing programs and services that would otherwise be cost prohibitive to their member districts. The RECs depend upon revenues from contracted delivery of services to districts, grants, inter-governmental agreements, and joint-powers agreements.

RECs are a vital and necessary component of New Mexico's education system and will continue to serve as a conduit and delivery system for New Mexico's school improvement and transformation.

RECA SERVICES: A SNAPSHOT

The following are just some of the many services provided by RECs in New Mexico:

- E-Rate
- Bus Driver Training
- Career Readiness & Work Study Programs
- Charter Schools Support & Training
- Child Find Activities
- Coordinate School-Reform Initiatives for NMPED
- Cooperative School Nurse & Related Services
- Education Data Collection & Analysis
- Fiscal Agency & Business Management Services
- Graduation/Drop Out Prevention
- Interactive Technology Training and Coaching
- Library: Instructional Materials & Equipment
- Medicaid School-Based Health Services
- Parent Training
- Principal Mentoring
- Linguistically and Culturally Responsive Teaching Professional Development
- FERPA Training
- School & District Strategic Planning
- School-Based Health Clinics
- Special Education Technical Assistance
- Standards & Data-Based Instructional Facilitation
- Substance Abuse Prevention
- Character Education/Bullying
- Suicide Prevention
- Teacher Evaluation Training & Support
- Teacher Mentoring & Classroom Coaching
- Technology Assistance & Maintenance
- Dossier Consultants
- Principals Pursuing Excellence (PPE)
- Teachers Pursuing Excellence (TPE)
- School Safety Support

“Economies of scale through (REC’s) allow districts to leverage limited resources into targeted support for multiple schools and to share costs with other school districts. RECs must also be accountable to their customers, react to the marketplace, act as entrepreneurs, and respond to federal, state, and local district needs.”

-Rod Paige, Past-U.S. Secretary of Education

Working for the Future

David Bowman
Executive Director,
Four Corners Regional
Education Collaborative #1

David Bowman has spent more than two decades in education leadership and administration. After teaching high school and directing a teacher quality program for the Eastern Navajo Agency, Mr. Bowman directed several critical programs at the public education department, designed and directed multi-state literacy and math interventions, served as a federal program evaluator, and directed multiple federally funded education initiatives focused on increasing achievement among low socioeconomic communities throughout the Southwest. He holds a master's degree in English from the University of California and an executive master's in business administration from the Anderson School of Management, as well as a Level III-B school administrator's license in New Mexico.

Our primary goals are to

- Expand Career Technical Education opportunities,
- Increase the graduation rate,
- Develop students' social and emotional skills, and
- Strengthen the school-parent connection.

EDUCATION

- New Mexico Highlands University: BA - Elementary Education, BA - Special Education
- University of New Mexico: MA - Educational Leadership
- Taos High School - HS Diploma

EXPERIENCE

- NWREC #2 Executive Director (3 years)
- 2014 State of New Mexico Principal of the Year
- Questa Independent Schools - Superintendent (3 years), High School Principal (4 years)
- Santa Fe Public Schools - Assistant Principal (1 year), Teacher, Afterschool Director (8 years)
- Taos Municipal Schools - Middle School Math Teacher, SPED Teacher, HS Varsity Dance Coach (5 years)

FAMILY BACKGROUND

Mother of 5 children, grandmother to 3 beautiful granddaughters and wife of 17 years. I am a first-generation college graduate and first in my family to be in the education profession.

VISION

As the Executive Director, my goal is to develop our teachers and students to reach their greatest potential. I strongly believe that it is essential to provide academic and social emotional supports to students. I have learned through the development of my own children that one size does not fit all. They each chose their own path such as teaching, military, banking, and the workforce. It is through this understanding of multiple intelligences that I have been inspired to focus on the whole child and ensure wrap around services are provided as they navigate towards graduation. It is my hope that our students achieve academic success and experience a well-rounded and memorable education.

RECs IN NEW MEXICO

The Northwest Regional Education Cooperative # 2 aspires to be the premiere provider of choice for comprehensive, specialized, and collaborative educational services to promote equity and excellence through support and service. The Northwest Regional Education Cooperative #2 exists to be an indispensable partner. Our mission is to enhance and maximize success through professional development in order elevate student achievement.

NWREC#2 CORE VALUES

Professionalism, Respect, Integrity, Dedication, Excellence, Accountability, Building relationships, Collaborative, Cooperative.

FAMILY BACKGROUND

Grandmother, Mother (elementary teachers)

RECS IN NEW MEXICO

In my tenure, the REC model and their work have not been familiar to those beyond member districts. Only in the last few years, due to increased IGAs and state-wide work, have the RECs received more exposure to education stakeholders across the state. While strides have been made, I believe that RECs, as a valuable resource to support New Mexico's education goals, remain under-utilized and under-funded. Most RECs rely on entrepreneurial activities to continue to be viable.

I believe that New Mexico has the ability to increase student learning outcomes and rise in its national standing. While there are many ambiguous challenges in education, one clear area of need is teacher professional development and growth. New Mexico is unique in its lack of a continuing education requirement, once licensure is acquired. While this would require legislation, I believe that the conduit for it could be the RECs and their relationships with universities.

HPREC's VISION

Our vision, identified in 1998, remains - *Dedicated to Educational Excellence*

MARIA JARAMILLO

Executive Director

Central Region Educational Cooperative #5

EDUCATION

- Moved to Alamogordo, NM from England in 1978
- Alamogordo High School Graduate
- NMSU - B.A. in Communicative Disorders
- UNM - M.S. in Speech Pathology
- Level 3A PreK-12 Speech Language Pathology; Level 3B PreK-12 Administrative License

EXPERIENCE

I have been honored to serve as the executive director of the Central Region Educational Cooperative (REC 5) for the past nine years and have been an employee of CREC since 1993. My professional life began as a speech language pathologist for school districts including Carlsbad, Albuquerque, Moriarty-Edgewood, and the 6 CREC member (traditional) school districts. I was also a co-owner of a private practice, Communication Assessment Services for eight years where I provided speech-language diagnostic services to schools within the Eastern Navajo Agency. During my tenure here at CREC, I have served in many support roles including Child Find, Literacy (DIBELS), and Special Education. I have had the privilege of serving as the NMCEL and RECA President, Related Service Advisory Council Chair and am currently elected to the national AESA Executive Council to represent the western states. In NM, I also serve as a member to the Deans and Directors of Colleges of Education (NMACTE) and chair the Coalition of State Supported Education Programs (COSSEP). My affiliation with NM PED is has been as a member of the RtI/Student Assistance Team and NM TEACH Advisory Councils.

VISION

As a NM educator for 32 years, I continue to be committed to assisting the educators help students of NM find their life purpose. I believe "it takes a team" and I am grateful for my staff, Council, and member school districts in this collective effort. I am optimistic about the future of NM Education as all the education partners are visibly aligned in working together. Here at CREC, we understand the unique challenges for not only NM rural schools but also our NM state supported education programs. Our job is to be aware of our member districts' needs and assist them in filling the gap. We accomplish this by connecting our members with a variety of educational tools and resources such as provision of related services, special education technical assistance, educational growth opportunities collaborative purchasing, and funding supports. We recognize the importance of flexibility when working with a diverse membership and never take a one-size-fits-all approach. Every district, every school, and every child have distinct and individual needs. We are here for our members, and most importantly, we are all here for our kids.

RECs IN NEW MEXICO

As one of ten NM RECs, the CREC is committed to assisting in the provision of equitable access to quality education programs and supports for all students of all abilities in the state of NM since 1984. RECs have prided themselves in "putting kids first". The key to accomplishing this lies in cooperation and collaboration with all our NM educational partners through a collective impact approach. We believe RECs have been underutilized in our state and are looking forward to what the future holds for NM students and RECs!

Scott McMath

Executive Director
Regional Education Cooperative #6

I attended public school in Estancia New Mexico and graduated from Estancia High School in 1982. After completing HS, I attended Eastern New Mexico University and graduated in December 1987 with a major in Physical Education and a minor in Special Education. I began my education career in January 1988 teaching special education at Marshall Junior High in Clovis, NM. In June 1988 my wife and I moved to Ruidoso, NM where she taught mid-school math and I taught HS PE and Special Education. After 1 year in Ruidoso we moved to Fort Sumner and worked for Fort Sumner Municipal Schools until I retired in June 2013 and she retired in June 2016 with 29 years in Public Education. While at Fort Sumner, my wife and I both earned our master's degree from New Mexico State University and Eastern New Mexico University respectively.

After being retired for a year I realized I was not finished with my education career. When the Executive Director position at REC 6 opened I decided to apply and was fortunately hired and began in July 2014. I am finishing up my 5th year in this position and my 30th year in Public Education. During my 30-year career I have been a Physical Education Teacher, Special Education Teacher, Assistant Coach, Head Coach, Special Education Director, Technology Director, Maintenance Supervisor, Athletic Director, STAR's Coordinator, backup Bus Driver, Elementary Principal, and now, REC Director.

My educational belief is very simple. All students can learn, and we must provide educational programs that challenge and support students. Decisions need to be made with the idea of how students will be impacted, districts must have local control, and districts/schools must be accountable to their students and communities.

I believe the REC's are valuable resources to their member districts and their first obligation is to their member districts. With that said, I also believe the REC's are and can continue being a great medium for implementation of state-wide initiatives.

Regional Education Cooperative #7

CLIFF BURCH

Executive Director
Regional Education Cooperative #7

- My parents were both NM educators, my mom was a first-grade teacher and my dad a Jr High teacher until they both retired.
- My wife's parents were also both educators in NM until they retired. My wife retired from NM as a teacher after 35 years.
- I was a Clovis High School graduate.
- I went to New Mexico Junior College in Hobbs after high school then attended Eastern New Mexico University in Portales where I received my Bachelor's and Master's degree in Administration. I attended Texas Tech University to receive a Special Education certification.
- I have five years teaching experience in Seminole TX, including elementary school, secondary school and HS Special Education. I have 33 years with public education in Hobbs New Mexico including High School teacher, Elementary Principal, High School Principal and Central Office Administration. The Central Office Administration included; Assistant Superintendent for Operations, Superintendent of Schools, and Director of Special Education.
- This year will be my 40th year working with public education, 35 years in NM and six in Texas.
- I am completing my second year with REC 7.
- Being an educator, my whole life has me believing that NM has great schools with a continuous dream of always being better. I would think this is what we would all appreciate and stand for.
- I envision our REC as being a complete service center for all of our schools, communities, parents and children to help achieve the goal of continuous improvement.

Executive Director
Pecos Valley Regional
Education Cooperative #8

I come from a family of educators. My wife teaches AP/ Senior English at Goddard High School. I have a Sister and Brother in Law who teach in Bloomfield, a sister who works in the Farmington Schools and one who works in the Aztec Schools.

- I began my education career in the fall of 1992 as the volunteer C- Team Girls Basketball Coach at Farmington High School. I went on to teach and coach at both FHS and Piedra Vista High Schools. In 1999 I became an Assistant Principal at Farmington High School. After 4 years I became the Principal at Bluffview Elementary School. In 2004 I became the Principal at Heights Middle School. We were fortunate enough to turn Heights Middle School around and have it become one of the most academically successful schools in New Mexico.

In 2013 I became the Executive Director of the Pecos Valley Regional Educational Cooperative #8 in Artesia, New Mexico. At PVREC I have assembled a world class team of professionals to serve the needs of our member districts. We put together the TAP program in partnership with C.E.S. and NMPSIA. We have built SystemsGo New Mexico which is a comprehensive four-year high school aerospace program sponsored by NASA, Spaceport America, Virgin Galactic, Chevron & Boeing. We are excited to bring actual "Rocket Science" to students all over our state! We also began administering Driver's Ed New Mexico in the fall. Our Driver's Ed New Mexico curriculum is Quality Matters certified.

We are currently working with New Mexico Tech to build inexpensive STEAM Curriculum for use in schools all over New Mexico. This will be high end STEAM Curriculum built for New Mexico schools by New Mexico professionals. We are also in the early stages of developing regional Hack-a-Thons for high school students around New Mexico.

I believe the most important part of education is that of relationship. If a student knows you truly care they will perform well. I believe that we have the capacity in New Mexico to build World-Class schools and communities. New Mexico is a unique state with unique demographics and we have the opportunity to leverage our uniqueness to propel our entire state forward.

Pecos Valley Regional Education Cooperative # 8 stands ready to help the NMPED as they guide us forward as a state.

Kelley Alsop, Deputy Director of PVREC 8, has 22 years of experience in the educational system in NM. She holds a master's degree in Special Education from NMSU with an emphasis in Assessment and a minor in Educational Psychology. Kelley is a licensed Educational Diagnostician and holds an Administrative License as well. Her primary focus over her career has been in Special Education and helping serve the needs of both the students and educators she has been blessed to work with!

BRYAN DOOLEY

Executive Director
Region 9 Education Cooperative

EXECUTIVE DIRECTOR

Graduate of Deming High School (Go Wildcats!), with a BA from ENMU Portales (Go Greyhounds), BS from Western New Mexico University (Go Mustangs), an Associates of Applied Science from San Juan College with a Physical Therapist Assistant License.

- Worked in education in New Mexico for 35 years.
- Region 9 for 19 years in all aspects, technology, special projects, business manager, Human Resource, and the most current 3 as the Executive Director.
- Private business owner of an Apple Computer retail store for 16 years serving schools and educators across Southern NM.
- Independent residential contractor in NM for 10 years building houses in Alamogordo, Ruidoso, Taos and Rio de los Pinos.
- Physical Therapist Assistant for 8 years serving St. Vincent Hospital in Santa Fe.

Father was High School Math Teacher and Basketball Coach for 25+ years - he was a graduate of Deming High School with a Bachelors and Masters in Education from Western New Mexico University, a football picture of him with a leather helmet used to hang above the entrance to the WNMU Field House Gymnasium. Mom worked in the schools as a substitute teacher, librarian and study hall proctor.

Optimistic about the opportunity for a collaborative effort on the part of the RECs in NM to align with the Public Education Department.

Region 9 is your innovative Regional Education Cooperative providing exceptional services to children, families, and communities in New Mexico. We are R9 Proud!

DEPUTY DIRECTOR

Dahn Freed is the supervisor of the educational services department as well as the R9 Deputy Director. She has a Masters of Science in Education, holds a Level-3B administrative license and is also a licensed educational diagnostician. Dahn has been with Region 9 for 22 years. She has a background with Region 9 working in early childhood development and evaluation processes. Dahn also provides professional development to member districts and across the State of NM.

Valerie Brea, the Executive Director at SWREC 10, has been in education for over 24 years. She spent the first eight years of her career as a special education teacher in a self-contained K–5 class and then as a reading coach in an elementary school in Silver City, New Mexico. During these years, she obtained two master's degrees in special education and educational leadership, in addition to her BA in elementary education. Valerie has been a general education teacher, a Special Education teacher, a principal and Special Education Director and she holds Level-3A K-12 Instructional Leader and Level-3B Administrative Licenses. Ms. Brea has spent the past 6 ½ a half years working with the Southwest Regional Education Cooperative (SWREC) designing and implementing professional development for teachers covering a wide range of topics. She also mentors principals in the Principals Pursuing Excellence program and serves as the Special Education Support contact for the SWREC member districts. She is passionate about supporting equitable education for ALL students in New Mexico.
