

Mobile Integrated Health, the future of EMS

Value Underpinnings:

Providing the right care at the right time and at the right place to improve health outcomes, improve the experience of care, and reduce system costs.

New Mexico EMT Scope of Practice:

NMAC 7.27.11.1 through 7.27.11.11 (particularly, see 7.27.11.8F)

Workforce Development Related to MIH Programs:

Community Health Workers, Peer Support Specialists, and Community Health Representatives can be an integral part of MIH programs.

Increased oversight and support for rural providers may lead to paramedics to find more satisfaction practicing in rural areas.

Community EMT and Community Paramedic may supplement MIH programs.

Interconnectedness through technologies like telemedicine may support service provision and employment in Health Professional Shortage Areas.
