#### **SUMMARY**

### Synopsis of Bill

HB 73 appropriates \$17,000.0 in general fund to CYFD to restore childcare assistance to low-income families whose income span is from 100% to 200% of the federal poverty level. The bill contains an emergency appropriation.

# Significant Issues

The bill restores funding for childcare assistance to low-income families to a pre-August 1, 2001 level.

CYFD reports that they continue to provide childcare assistance prioritizing families exiting directly from the TANF roles, and then to income eligible families. The department further states that childcare block grant monies appropriated from the federal government have permitted a percentage of income eligible families whose income range is at 100% to 200% of poverty to be provided with childcare services that have been on the waiting list.

### PERFORMANCE IMPLICATIONS

CYFD notes that the bill impacts the CYFD output measure regarding the number of clients who receive childcare. This bill also impacts CYFD's performance measure for non-traditional hours of care. CYFD expresses concern that additional requirements imposed by the bill will affect the department's ability to meet current performance-based budget measures.

### FISCAL IMPLICATIONS

This bill appropriates \$17,000.0 in recurring general fund to CYFD for expenditure in fiscal years 2002 and 2003. Any unexpended and unencumbered balances remaining at the end of FY03 shall revert to the general fund. The bill contains an emergency clause.

This appropriation is not part of the CYFD's request and is not included in the executive recommendation

### **ADMINISTRATIVE IMPLICATIONS**

The bill's appropriation allows for additional eligible low-income families to be funded for child-care assistance. Computer systems would require a reconfiguration to 200% of poverty level.
