J. Pursuant to Section 6-4-2 NMSA 1978, federal funds received during fiscal year 2005 and not specifically appropriated shall be subject to future appropriation by the legislature provided, however, that an agency may request a budget increase during fiscal year 2005 from the state budget division if the agency submits documentation to the state budget division and to the legislative finance committee showing that all of the following five requirements have been met:

- (1) the requested budget increase is for federal funds the amount of which could not have been reasonably anticipated or known during the second session of the forty-sixth legislature and, therefore, could not have been requested by the agency or appropriated by the legislature;
- (2) the federal law authorizing the disbursement of the federal funds to the state requires the funds to be expended for specific programs or specific governmental functions without leaving a policy choice to the state of how the funds are to be expended;
- (3) the state has no discretion as to the programs or governmental functions for which the federal funds will be expended;
- (4) the executive branch has had no input into the selection of the programs or governmental functions for which the federal funds are required to be expended; and
- (5) due to the emergency nature of the purpose of the federal funds or the likelihood that the federal funds will be unavailable in the future, the funds need to be budgeted and expended before the first session of the forty-seventh legislature.

K. For fiscal year 2005, the number of permanent and term full-time-equivalent positions specified for each agency shows the maximum number of employees intended by the legislature for that agency, unless another provision of the General Appropriation Act of 2004 or another act of the second session of the forty-sixth legislature provides for additional employees.

L. Except for gasoline credit cards used solely for operation of official vehicles, telephone credit cards used solely for official business and procurement cards used as authorized by Section 6-5-9.1 NMSA 1978, none of the appropriations contained in the General Appropriation Act of 2004 may be expended for payment of agency-issued credit card invoices.

M. To prevent unnecessary spending, expenditures from the General Appropriation Act of 2004 for gasoline for state-owned vehicles at public gasoline service stations shall be made only for self-service gasoline provided that a state agency head may provide exceptions from the requirement to accommodate disabled persons or for other reasons the public interest may require.
