HOUSE BILL 8

46TH LEGISLATURE - STATE OF NEW MEXICO - SECOND SESSION, 2004

INTRODUCED BY

Max Coll

AN ACT

MAKING GENERAL APPROPRIATIONS AND AUTHORIZING EXPENDITURES BY STATE AGENCIES REQUIRED BY LAW BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

- Section 1. **SHORT TITLE**. -- This act may be cited as the "General Appropriation Act of 2004".
- Section 2. **DEFINITIONS**. -- As used in the General Appropriation Act of 2004:
- A. "agency" means an office, department, agency, institution, board, bureau, commission, court, district attorney, council or committee of state government;
- B. "efficiency" means the measure of the degree to which services are efficient and productive and is often expressed in terms of dollars or time per unit of output;
- C. "expenditures" means costs, expenses, encumbrances and other financing uses, other than refunds authorized by law, recognized in accordance with generally accepted accounting principles for the legally authorized budget amounts and budget period;
- D. "explanatory" means information that can help users to understand reported performance measures and to evaluate the significance of underlying factors that may have affected the reported information;
 - E. "federal funds" means any payments by the United States government to state government or

2

3

agencies except those payments made in accordance with the federal Mineral Lands Leasing Act;

- F. "full-time equivalent" or "FTE" means one or more authorized positions that alone or together receives or receive compensation for not more than two thousand eighty-eight hours worked in fiscal year 2005. The calculation of hours worked includes compensated absences but does not include overtime, compensatory time or sick leave paid pursuant to Section 10-7-10 NMSA 1978;
- G. "general fund" means that fund created by Section 6-4-2 NMSA 1978 and includes federal Mineral Lands Leasing Act receipts and those payments made in accordance with the federal block grant and the federal Workforce Investment Act, but excludes the general fund operating reserve and the appropriation contingency fund;
- H. "interagency transfers" means revenue, other than internal service funds, legally transferred from one agency to another;
 - I. "internal service funds" means:
- (1) revenue transferred to an agency for the financing of goods or services to another agency on a cost-reimbursement basis; and
- (2) unencumbered balances in agency internal service fund accounts appropriated by the General Appropriation Act of 2004;
 - J. "other state funds" means:
- (1) unencumbered, nonreverting balances in agency accounts, other than in internal service funds accounts, appropriated by the General Appropriation Act of 2004;
- (2) all revenue available to agencies from sources other than the general fund, internal service funds, interagency transfers and federal funds; and
 - (3) all revenue, the use of which is restricted by statute or agreement;
 - K. "outcome" means the measure of the actual impact or public benefit of a program;
- L. "output" means the measure of the volume of work completed, or the level of actual services or products delivered by a program;

- M "performance measure" means a quantitative or qualitative indicator used to assess a program;
- N. "program" means a set of activities undertaken in accordance with a plan of action organized to realize identifiable goals and objectives based on legislative authorization;
- 0. "quality" means the measure of the quality of a good or service produced and is often an indicator of the timeliness, reliability or safety of services or products produced by a program;
- P. "revenue" means all money received by an agency from sources external to that agency, net of refunds and other correcting transactions, other than from issue of debt, liquidation of investments or as agent or trustee for other governmental entities or private persons;
 - Q. "target" means the expected level of performance of a program's performance measures; and
- R. "unforeseen federal funds" means a source of federal funds or an increased amount of federal funds that could not have been reasonably anticipated or known during the second session of the forty-sixth legislature and, therefore, could not have been requested by an agency or appropriated by the legislature.

Section 3. **GENERAL PROVISIONS**. --

- A. Amounts set out under column headings are expressed in thousands of dollars.
- B. Amounts set out under column headings are appropriated from the source indicated by the column heading. All amounts set out under the column heading "Internal Service Funds/Interagency Transfers" are intergovernmental transfers and do not represent a portion of total state government appropriations. All information designated as "Total" or "Subtotal" is provided for information and amounts are not appropriations.
- C. Amounts set out in Section 4 of the General Appropriation Act of 2004, or so much as may be necessary, are appropriated from the indicated source for expenditure in fiscal year 2005 for the objects expressed.
 - D. Unencumbered balances in agency accounts remaining at the end of fiscal year 2004 shall

revert to the general fund by October 1, 2004, unless otherwise indicated in the General Appropriation Act of 2004 or otherwise provided by law.

- E. Unencumbered balances in agency accounts remaining at the end of fiscal year 2005 shall revert to the general fund by October 1, 2005, unless otherwise indicated in the General Appropriation Act of 2004 or otherwise provided by law.
- F. The state budget division shall monitor revenue received by agencies from sources other than the general fund and shall reduce the operating budget of any agency whose revenue from such sources is not meeting projections. The state budget division shall notify the legislative finance committee of any operating budget reduced pursuant to this subsection.
- G. Except as otherwise specifically stated in the General Appropriation Act of 2004, appropriations are made in that act for the expenditures of agencies and for other purposes as required by existing law for fiscal year 2005. If any other act of the second session of the forty-sixth legislature changes existing law with regard to the name or responsibilities of an agency or the name or purpose of a fund or distribution, the appropriation made in the General Appropriation Act of 2004 shall be transferred from the agency, fund or distribution to which an appropriation has been made as required by existing law to the appropriate agency, fund or distribution provided by the new law.
- II. In August, October, December and May of fiscal year 2005, the department of finance and administration, in consultation with the staff of the legislative finance committee and other agencies, shall prepare and present revenue estimates to the legislative finance committee. If these revenue estimates indicate that revenues and transfers to the general fund excluding transfers to the general fund operating reserve, the appropriation contingency fund or the state-support reserve fund, as of the end of fiscal year 2005, are not expected to meet appropriations from the general fund, then the department shall present a plan to the legislative finance committee that outlines the methods by which the administration proposes to address the deficit.
 - I. Pursuant to Sections 6-3-23 through 6-3-25 NMSA 1978, agencies whose revenue from

unforeseen federal funds, from state board of finance loans, from revenue appropriated by other acts of the legislature, or from gifts, grants, donations, bequests, insurance settlements, refunds, or payments into revolving funds which exceeds specifically appropriated amounts may request budget increases from the state budget division. If approved by the state budget division, such money is appropriated. In approving a budget increase from unforeseen federal funds, the director of the state budget division shall advise the legislative finance committee as to the source of the federal funds and the source and amount of any matching funds required.

- J. For fiscal year 2005, the number of permanent and term full-time-equivalent positions specified for each agency shows the maximum number of employees intended by the legislature for that agency, unless another provision of the General Appropriation Act of 2004 or another act of the second session of the forty-sixth legislature provides for additional employees.
- K. Except for gasoline credit cards used solely for operation of official vehicles and telephone credit cards used solely for official business, none of the appropriations contained in the General Appropriation Act of 2004 may be expended for payment of credit card invoices.
- L. To prevent unnecessary spending, expenditures from the General Appropriation Act of 2004 for gasoline for state-owned vehicles at public gasoline service stations shall be made only for self-service gasoline provided that a state agency head may provide exceptions from the requirement to accommodate disabled persons or for other reasons the public interest may require.
- M When approving operating budgets based on appropriations in the General Appropriation Act of 2004, the state budget division is specifically authorized to approve only those budgets that are in accordance with generally accepted accounting principles for the purpose of properly classifying other financing sources and uses, including interfund, intrafund and interagency transfers.
- Section 4. **FISCAL YEAR 2005 APPROPRIATIONS**.--Under guidelines developed by the state budget division, in consultation with the legislative finance committee, each agency for which performance measures are established in this section shall file a report with the state budget division and the

Other Intrnl Svc
General State Funds/Inter- Federal
Item Fund Funds Agency Trnsf Funds Total/Target

legislative finance committee analyzing the agency's performance relative to the performance measures and targets in this section. The reports shall be submitted quarterly for certain performance measures and after the end of fiscal year 2005 for the remaining measures filed with the state budget division and the legislative finance committee on or before September 1, 2005. The state budget division, in consultation with the legislative finance committee, shall develop a list of key performance measures for quarterly reporting. The reports shall compare actual performance for the report period with targeted performance based on the level of funding appropriated. In developing guidelines for the submission of agency performance reports, the state budget division, in consultation with the legislative finance committee, shall establish standards for the reporting of variances between actual and targeted performance levels.

Unless explicitly stated otherwise, each of the program measures and the associated targets contained in this section reflect performance to be achieved for fiscal year 2005. In cases where there are no targets for output, outcome, efficiency or quality measures, agencies are expected to develop baseline data during fiscal year 2005 and to propose targets when submitting budget requests for fiscal year 2006.

Development Act of 1986 provided that no amount of this appropriation shall be expended for any project unless the appropriate acequia system or community ditch has agreed to provide seven and one-half percent of the cost from any source other than the irrigation works construction fund or improvement of the Rio Grande income fund and provided that no more than two hundred and fifty thousand (\$250,000) shall be appropriated to one acequia per fiscal year; (b) two hundred fifty thousand dollars (\$250,000) for planning, design, supervision of construction and construction of approved acequia improvement projects in cooperation with the United States department of agriculture, United State department of the interior, United States department of the army or other engineers; and (c) two hundred fifty thousand dollars (\$250,000) for the construction, improvement, repair and protection from floods of dams, reservoirs, ditches, flumes and appurtenances of community ditches in the state, provided that not more than sixty thousand dollars (\$60,000) of this appropriation shall be used for any one community ditch. The state engineer may enter into cooperative agreements with the owners or commissioners of ditch associations to ensure that the work is done in the most efficient and economical manner and may contract with the federal government or any of its agencies or instrumentalities that provide matching funds or assistance. state funds other than loans may be used to meet the association's twenty percent share of the total cost of the project.

The appropriation to the irrigation works construction program of the state engineer includes grants, in such amount as determined by the interstate stream commission, for construction, improvement, repair and protection from floods of dams, reservoirs, ditches, flumes and appurtenances of community ditches in the state located on Indian land whether pueblo or reservation.

The interstate stream commission's authority to make loans for irrigation improvements includes five hundred thousand dollars (\$500,000) for loans to acequias, irrigation and conservancy districts. The interstate stream commission's authority also includes five hundred thousand dollars (\$500,000) for loans to irrigation districts, conservancy districts and soil and water conservation districts for re-loan to farmers for implementation of water conservation improvements.

On approval of the commission on higher education, the state budget division of the department of finance and administration may approve increases in budgets of agencies in this section, with the exception of the policy development and institutional financial oversight program of the commission on higher education, whose other state funds exceed amounts specified. In approving budget increases, the director of the state budget division shall advise the legislature through its officers and appropriate committees, in writing, of the justification for the approval.

Except as otherwise provided, any unexpended or unencumbered balance remaining at the end of fiscal

Authorized FTE: 24.00 Permanent; 9.50 Term

By June 15, 2004, the commission on higher education shall seek approval from the legislative finance committee and the department of finance and administration of a recommendation of the funding allocation design, performance assessment criteria and targets and audit verification process by which awards for student persistence and completion are granted to post-secondary institutions from the performance fund.

By September 1, 2004, the commission on higher education shall report time series data to the office of the governor, public education department, department of finance and administration and legislative finance committee on performance measures and targets for recruitment, enrollment, retention and graduation rates for native american and hispanic students. The commission on higher education shall provide an action plan by institution to achieve targeted results.

Any unexpended or unencumbered balance in the policy development and institutional financial oversight program remaining at the end of fiscal year 2005 from appropriations made from the general fund

end of fiscal year 2005.

PUBLIC SCHOOL SUPPORT:

The purpose of public school support is to carry out the mandate to establish and maintain a uniform system of free public schools sufficient for the education of and open to, all children of school age in the state.

(1) State equalization guarantee distribution:

Appropri ati ons:

1, 825, 144. 7

1, 825, 144. 7

The rate of distribution of the state equalization guarantee distribution shall be based on a program unit value determined by the secretary of public education. The secretary of public education shall establish a preliminary unit value to establish budgets for the 2004-2005 school year and then upon verification of the number of units statewide for fiscal year 2005 but no later than January 31, 2005 the secretary of public education may adjust the program unit value.

The general fund appropriation to the state equalization guarantee distribution reflects the deduction of federal revenues pursuant to Paragraph (2) of Subsection C of Section 22-8-25 NMSA 1978 that includes payments commonly known as "impact aid funds" pursuant to 20 USCA 7701 et seq., formerly known as "PL874 funds".

The general fund appropriation to the public school fund shall be reduced by the amounts transferred to the public school fund from the current school fund and from the federal Mineral Lands Leasing Act receipts otherwise unappropriated.

Any unexpended or unencumbered balance in the distributions authorized remaining at the end of fiscal year 2005 from appropriations made from the general fund shall revert to the general fund.

(2) Transportation distribution:

Unless otherwise indicated, the appropriations may be expended in fiscal years 2004 and 2005. Unless otherwise indicated, any unexpended or unencumbered balances remaining at the end of fiscal year 2005 shall revert to the computer systems enhancement fund or other funds as indicated. The department of finance and administration shall allocate amounts from the funds for the purposes specified upon receiving certification and supporting documentation from the requesting agency that identifies quantifiable benefits and nonrecurring and recurring costs for the development and implementation of the proposed system and, for executive agencies, upon certification from the state chief information officer that indicates compliance with the state information architecture and individual information and communication systems plans, the statewide information technology strategic plan and information technology commission information technology project certification criteria. If the funding is to continue on a project, the documentation shall include certification from the information technology commission project certification committee and a written report by the state chief information officer that the project is on schedule, approved project methodology has been followed, independent validation and verification contractor recommendations have been implemented, all funds previously allocated have been properly expended and additional funds are required. All hardware and software purchases funded through the base budget and the information technology funding recommendations shall be procured using consolidated purchasing led by the state chief information officer to achieve economies of scale and to provide the state with the best unit

Other Intrnl Svc General State Funds/Inter- Federal Item Fund Funds Agency Trnsf Funds Total/Target

price. For executive agencies, the following amounts are contingent upon publication of a state information architecture prepared and submitted to the information technology commission, information technology oversight committee and the legislative finance committee no later than May 1, 2004 by the state chief information officer with input from major stakeholders. The state information architecture shall provide a three year strategy for systems to comply with the proposed architecture. The department of finance and administration shall provide a copy of the certification and all supporting documentation to the legislative finance committee.

(1) ADMINISTRATIVE OFFICE OF THE COURTS:

800.0

800.0

To complete the expansion of video conferencing equipment in the magistrate courts.

(2) ADMINISTRATIVE OFFICE OF THE COURTS:

800.0

800.0

To replace computer equipment for the New Mexico judiciary information systems. This project is a one-time supplement to the court automation fund for computer equipment replacement at individual court sites for equipment that has not been replaced within the last four years.

(3) TAXATION AND REVENUE DEPARTMENT:

1, 300. 0

1, 300, 0

To complete phase five of the integrated tax system. Phase five is to include a module to manage fuel tax receipts to reduce manual processing errors and enhance service to constituents through a single integrated tax application. The taxation and revenue department will provide the legislative finance committee with quarterly reports on increased revenue collections achieved through enhanced audit exception reporting.

(4) DEPARTMENT OF FINANCE AND

ADMINISTRATION:

1, 400.0

800.0

2, 200. 0

To implement a multi-agency system for imaging and archiving documents electronically to improve access, integration of, and accuracy of information. The taxation and revenue department will serve as lead agency with assistance from the state commission of public records and the human services department. This appropriation is contingent upon receiving written approval from the federal funding agency.

(5) DEPARTMENT OF FINANCE AND

ADMI NI STRATI ON:

3, 500.0

1,000.0

3, 500. 0

To implement phase one of an enterprise human resources and financial accounting system. Agencies will be assessed a per employee processing cost to implement the human resources and payroll share of the system.

(6) DEPARTMENT OF FINANCE AND

ADMI NI STRATI ON

1, 000. 0

To implement an enterprise-wide information security program. The goal of this program is to create an enterprise security authority with statewide coordination. The information security program includes a single security architecture with common goals, methods, standards and policies across the entire enterprise. The information security program will be coordinated through a single chief information security officer and will develop a computer incident response team, a threat and vulnerability reduction function, an audit and assessment function and an information security awareness and training function. The general services department will serve as the lead agency for this multi-agency project and will coordinate implementation with the New Mexico institute of mining and technology.

(7) DEPARTMENT OF FINANCE AND

ADMINISTRATION:

2,000.0

2, 000, 0

To continue to implement a single statewide, centralized telecommunications backbone for state government based on asynchronous transfer mode technology. Funding is contingent on the state chief information officer coordinating with the general services department office of communications and preparing a statewide architectural plan and a network architecture plan no later than May 1, 2004. The state-owned digital microwave telecommunication system shall be used at all locations possible to enhance statewide telecommunications and leverage state-owned resources without incurring additional costs. The department of finance and administration shall require the state chief information officer to establish a separate account from which funds can be drawn to pay for expenditures after approval by the information technology commission. The state chief information officer shall provide monthly written reports to the information

General State Funds/Inter- Federal
Item Fund Funds Agency Trnsf Funds Total/Target

technology commission, information technology oversight committee and the legislative finance committee.

(8) DEPARTMENT OF FINANCE AND

ADMI NI STRATI ON:

300. 0

To continue implementing a statewide New Mexico portal that will deliver e-government services to constituents, businesses and other government entities. The portal shall strengthen control and security over access to citizen information, simplify constituent access to government information, improve operation efficiency of government services and demonstrate a return on investment. A governing organization shall be formed to clarify decision-making authority and responsibilities to enable e-government services through a statewide portal. The project shall publish a vision and strategic plan for e-government based on a self-funded model. The general services department will serve as the lead agency for this multi-agency project with the tax and revenue department serving as a co-sponsor. Funds will be allocated to enable the taxation and revenue department to recover costs to participate in the project.

(9) DEPARTMENT OF FINANCE AND

ADMI NI STRATI ON:

500.0

300.0

500.0

To initiate a consolidation of agency email servers into a single enterprise-wide email system. Consolidating multiple email servers will demonstrate improved email service levels and reduce the cost of computer operations. Funding is made contingent upon submission of the following analysis by May 1, 2004, to the information technology commission, information technology oversight committee and the legislative finance committee; a state information architecture, a cost analysis of enterprise email options available, potential cost savings realizable by agencies and a strategic plan for enterprise identity management. The general services department will serve as the lead agency for this multi-agency project.

and local justice agencies. The justice information division will serve as the lead agency for this multi-agency project. This appropriation is contingent upon submission of a plan by the project team to the information technology commission, information technology oversight committee and the legislative finance committee for ongoing maintenance, enhancement and support of this portal environment on a go forward basis. This appropriation is contingent upon receiving written approval from the federal funding agency.

(11) EDUCATIONAL RETIREMENT BOARD:

900. 0

900.0

To complete the implementation of an off-the-shelf solution for managing educational retirement membership information. The period of time for expending the three million dollars (\$3,000,000) appropriated from the education retirement fund in Item (11) of Section 8, Chapter 64, Laws 2001, as extended by Item (11) of Section 7, Chapter 4, Laws 2002 (1st E.S.), and as extended by Item (7) of Section 7, Chapter 76, Laws 2003, is extended through fiscal year 2005. The period of time for expending the two million dollars (\$2,000,000) appropriated from the educational retirement fund contained in Item (8) of Section 7 of Chapter 4 of Laws 2002 (1st E.S.), as extended by Item (7) of Section 7, Chapter 76, Laws 2003, is extended through fiscal year 2005 to complete implementation of an off-the-shelf solution for managing educational retirement membership information. The educational retirement board shall provide periodic reports to the legislative finance committee and the state chief information officer.

(12) OFFICE OF THE CHIEF INFORMATION

OFFI CER:

500. 0

500. 0

To develop and publish a state information architecture and a state information technology consolidation plan. The state information architecture shall include a current inventory of all layers of technology by agency, a vision for the future state of technology and a set of guiding principles for building the future state. The state information architecture shall also include an application architecture for social services. A state information technology consolidation plan shall include a road map for implementing the future vision and costs for specific initiatives to manage enterprise technical services

Other Intrnl Svc General State Funds/Inter- Federal Item Fund Funds Agency Trnsf Funds Total/Target

such as servers, databases, networks and mainframe migration. The chief information officer shall publish and submit a state information architecture and state information technology consolidation plan to the legislative finance committee, the information technology commission and the information technology oversight committee by May 1, 2004.

(13) REGULATION AND LICENSING DEPARTMENT:

500. 0

500.0

To extend the use of licensing and credentialing software already installed at the regulation and licensing department to four health organizations including the board of medical examiners, radiation control bureau in the department of environment, the board of nursing and the injury prevention and emergency medical services in the department of health. This project will also upgrade the functionality of this commercial off-the-shelf solution to allow licensees to access and apply for licenses over the internet. Since the state already owns an enterprise license for this software system, funding is only intended to pay for consulting services to assist the agency in extending the use of this system to additional agencies.

(14) PUBLIC REGULATION COMMISSION:

300.0

300.0

To implement a software module developed by the state of North Carolina for managing corporate registrations to enable enhanced reporting, electronic processing of certified document requests, cash management and electronic payment services for corporations.

(15) STATE FAIR COMMISSION:

350.0

350.0

To upgrade the computer network infrastructure at the state fairgrounds to a wireless network that will enable data communication between buildings lacking computer network wiring. The committee recommends the state fair commission coordinate with the chief information security officer and the general services department to define and adopt wireless security standards and best practices.

(16) GAMING CONTROL BOARD:

1, 000, 0

1. 000. 0

To negotiate a new central gaming monitoring system contract to replace the current equipment contract. This system shall provide real-time control and monitoring of gaming machines regulated by the board and

1

Item	General Fund	Other State Funds	Intrnl Svc Funds/Inter- Agency Trnsf	Federal Funds	Total /Target
					_

provide actual accounting on each device. The gaming control board shall coordinate with the chief information security officer and the general services department to ensure an appropriate level of security is implemented to protect gaming information from known vulnerabilities. The gaming control board shall implement procedures to ensure legacy systems that do not interface with the proposed system are allowed sufficient time to become compliant and undue hardship is not imposed on owners and licensees of these legacy systems.

(17) HUMAN SERVICES DEPARTMENT:

200.0

2,000.0

2, 200, 0

To automate the process for reviewing medicaid claims for fraud and abuse. This project shall provide the legislative finance committee with quarterly reports on medicaid claims recovered as a result of the new software. This appropriation is contingent upon a solution that is of a design that can be reused with any future medicaid systems the state may choose to adopt. This appropriation is contingent upon receiving written approval from the federal funding agency.

(18) LABOR DEPARTMENT:

300.0

300.0

To provide training for technology employees within the labor department tasked with supporting the unemployment insurance claims application system to enable support for web-based technical architectures. Training will utilize a combination of state-sponsored courses, technical-vocational institute and the university of New Mexico continuing education, and computer based training. This appropriation is contingent upon receiving written approval from the federal funding agency.

(19) DEPARTMENT OF HEALTH:

1.000.0

1.000.0

To implement an electronic web-enabled vital records birth and death system to enhance turnaround time for producing birth and death certificates and enhance quality of data submitted to federal contract agencies. This appropriation is contingent upon publication of an analysis of commercial-off-the-shelf solutions available to support this request.

(20) CORRECTIONS DEPARTMENT:

600.0

600.0

To transition the criminal management information system to a web-based application developed through a

Other Intrnl Svc General State Funds/Inter- Federal Item Fund Funds Agency Trnsf Funds Total/Target

consortium of western states. The system will be designed to improve data collection, viewing and use by department constituents and other public safety, judicial and law enforcement entities.

Section 8. COMPENSATION APPROPRIATIONS. --

A. Six million five hundred eighty-three thousand three hundred dollars (\$6,583,300) is appropriated from the general fund to the department of finance and administration for expenditure in fiscal year 2005 to provide salary increases subject to satisfactory job performance. The salary increases shall be effective the first full pay period after July 1, 2004, and distributed as follows:

- (1) one hundred sixty six thousand two hundred dollars (\$166,200) to provide the justices of the supreme court with a salary increase to one hundred ten thousand dollars (\$110,000); and to provide salary increases pursuant to the provisions of Section 34-1-9 NMSA 1978 to the chief justice of the supreme court; the chief judge of the court of appeals; judges of the court of appeals, district courts, metropolitan courts and magistrate courts; and child support hearing officers and special commissioners;
- (2) five hundred eighty seven thousand six hundred dollars (\$587,600) to provide judicial permanent employees whose salaries are not set by statute with a one percent salary increase;
- (3) fifteen thousand three hundred dollars (\$15,300) to provide salary increases for district attorneys as follows: district attorneys who serve in a district that does not include a class A county shall receive an annual salary of eighty six thousand six hundred forty two dollars (\$86,642) and district attorneys who serve in a district that includes a class A county shall receive an annual salary of ninety one thousand two hundred three dollars (\$91,203);
- (4) three hundred fifty seven thousand six hundred dollars (\$357,600) to provide all district attorney permanent employees, other than elected district attorneys, with a one percent salary increase;
- (5) four million five hundred fifty thousand three hundred dollars (\$4,550,300) to provide incumbents in agencies governed by the Personnel Act with a one percent salary increase;

General State Funds/Inter- Federal	Item	- 1	State	Funds/Inter-	- 1	Total /Target
------------------------------------	------	-----	-------	--------------	-----	---------------

- (6) three hundred ninety thousand two hundred dollars (\$390,200) to provide executive exempt employees, including attorney general employees and workers' compensation judges, with a one percent salary increase;
- (7) three hundred twenty three thousand three hundred dollars (\$323,300) to provide commissioned officers of the New Mexico state police division of the department of public safety with a one percent salary step increase in accordance with the New Mexico state police career pay system;
- (8) eighty nine thousand eight hundred dollars (\$89,800) to provide teachers in the department of health, corrections department, children, youth and families department and commission for the blind with a one percent salary increase; and
- (9) one hundred and three thousand dollars (\$103,000) to provide permanent legislative employees, including permanent employees of the legislative council service, legislative finance committee, legislative education study committee, legislative maintenance department, the house and senate, and house and senate leadership staff with a one percent salary increase.
- B. Six million four hundred thirty one thousand three hundred dollars (\$6,431,300) is appropriated from the general fund to the commission on higher education for expenditure in fiscal year 2005 to provide faculty and staff of four- and two-year post-secondary educational institutions with a one percent salary increase. The salary increase shall be effective the first full pay period after July 1, 2004.
- C. The department of finance and administration shall distribute a sufficient amount to each agency to provide the appropriate increase for those employees whose salaries are received as a result of the general fund appropriations in the General Appropriation Act of 2004. Any unexpended or unencumbered balance remaining at the end of fiscal year 2005 shall revert to the general fund.
- D. For those state employees whose salaries are referenced in or received as a result of non-general fund appropriations in the General Appropriation Act of 2004, the department of finance and administration shall transfer from the appropriate fund to the appropriate agency the amount

Other Intrnl Svc General State Funds/Inter- Federal Item Fund Funds Agency Trnsf Funds Total/Target

required for the salary increases equivalent to those provided for in this section, and such amounts are appropriated for expenditure in fiscal year 2005. Any unexpended or unencumbered balance remaining at the end of fiscal year 2005 shall revert to the appropriate fund.

E. In addition to the salary increases provided in subsections A through D of this section, five million three hundred twenty-seven thousand four hundred dollars (\$5,327,400) is appropriated from the general fund to the department of finance and administration for expenditure in fiscal year 2005 to provide a lump-sum award subject to satisfactory job performance. The lump-sum award shall be granted on a one-time basis and shall be limited to not more than one percent of the employee's annual salary. The lump-sum salary enhancement shall be distributed the first full pay period after July 1, 2004, and distributed as follows:

(1) one hundred thirty six thousand three hundred dollars (\$136,300) to provide the justices of the supreme court; the chief judge of the court of appeals; judges of the court of appeals, district courts, metropolitan courts and magistrate courts; and child support hearing officers and special commissioners with a lump-sum salary enhancement;

(2) four hundred eighty one thousand eight hundred dollars (\$481,800) to provide judicial permanent employees whose salaries are not set by statute with a lump-sum salary enhancement;

(3) twelve thousand five hundred dollars (\$12,500) to provide lump-sum salary enhancements for district attorneys;

(4) two hundred ninety three thousand two hundred dollars (\$293, 200) to provide all district attorney permanent employees, other than elected district attorneys, with a lump-sum salary enhancements;

(\$3,760,100) to provide incumbents in agencies governed by the Personnel Act with a lump-sum salary enhancement;

Other Intrnl Svc General State Funds/Inter- Federal Item Fund Funds Agency Trnsf Funds Total/Target

(6) two hundred twenty thousand two hundred dollars (\$220, 200) to provide executive exempt employees, including attorney general employees and workers' compensation judges, with a lump-sum salary enhancement;

(7) two hundred sixty five thousand one hundred dollars (\$265, 100) to provide commissioned officers of the New Mexico state police division of the department of public safety with a lump-sum salary enhancement;

(8) seventy three thousand six hundred dollars (\$73,600) to provide teachers in the department of health, corrections department, children, youth and families department and commission for the blind with a lump-sum salary enhancement; and

(9) eighty four thousand five hundred dollars (\$84,500) to provide permanent legislative employees, including permanent employees of the legislative council service, legislative finance committee, legislative education study committee, legislative maintenance department, the house and senate, and house and senate leadership staff with a lump-sum salary enhancement.

F. Six million fifty seven thousand four hundred dollars (\$6,057,400) is appropriated from the general fund to the commission on higher education for expenditure in fiscal year 2005 to provide faculty and staff of four-year and two-year post-secondary educational institutions with a lump-sum award. The one time lump-sum salary enhancement shall be distributed the first full pay period after July 1, 2004.

G. The department of finance and administration shall distribute a sufficient amount to each agency to provide the appropriate lump-sum salary enhancement for those employees whose salaries are received as a result of the general fund appropriations in the General Appropriation Act of 2004. Any unexpended or unencumbered balance remaining at the end of fiscal year 2005 shall revert to the general fund.

H. For those state employees whose salaries are referenced in or received as a result of non-general fund appropriations in the General Appropriation Act of 2004, the department of
