### SUMMARY

#### Synopsis of Bill

Senate Bill 442 declares information contained in county or municipal databases to be public information, except as otherwise provided by federal or state law. State agency database information is already public information.

### ADMINISTRATIVE IMPLICATIONS

The bill allows the county or municipality to receive consideration for the service provided. The bill allows a state agency, county or municipality to distribute the data by way of a computer tape or other storage medium. In these instances, the agency, county or municipality may base the amount of the consideration on the cost to the public of developing the database.
