The internal services funds/interagency transfers appropriations to the interstate stream compact compliance and water development program of the state engineer include four million eight hundred sixty-three thousand seven hundred dollars (\$4,863,700) from the irrigation works construction fund. Of this amount two million two hundred ninety-eight thousand one hundred dollars (\$2,298,100) is in the contractual services category and two million five hundred sixty-five thousand six hundred dollars (\$2,565,600) is in the other category.

The internal services funds/interagency transfers appropriation to the interstate stream compact compliance and water development program of the state engineer in the contractual services category includes seven hundred eighty-two thousand six hundred dollars (\$782,600) from the improvement of the Rio Grande income fund.

The internal services funds/interagency transfers appropriation to the interstate stream compact compliance and water development program of the state engineer includes one hundred thousand dollars (\$100,000) from the game protection fund for Ute dam operation. Any unexpended or unencumbered balance remaining at the end of fiscal year 2007 from this appropriation shall revert to the game protection fund.

Revenue from the sale of water to United States government agencies by New Mexico for the emergency drought water agreement dated April 2003, which expires February 28, 2013, and from contractual reimbursements associated with state engineer use of the revenue, is appropriated to the state engineer for the conservation and recovery of the listed species in the middle Rio Grande basin, including the optimizing of middle Rio Grande conservancy district operations.

million nine hundred thousand dollars (\$1,900,000) to match seventeen and one-half percent of the cost of work undertaken by the United States army corps of engineers pursuant to the Federal Water Resources Development Act of 1986, provided that no amount of this appropriation shall be expended for any project unless the appropriate acequia system or community ditch has agreed to provide seven and one-half percent of the cost from any source other than the irrigation works construction fund or improvement of the Rio Grande income fund and provided that no more than two hundred fifty thousand dollars (\$250,000) shall be appropriated to one aceguia per fiscal year; (2) two hundred fifty thousand dollars (\$250,000) for planning, design, supervision of construction and construction of approved acequia improvement projects in cooperation with the United States department of agriculture, United States department of the interior or United States department of the army or other engineers; and (3) two hundred fifty thousand dollars (\$250,000) for the construction, improvement, repair and protection from floods of dams, reservoirs, ditches, flumes and appurtenances of community ditches in the state, provided that not more than one hundred twenty thousand dollars (\$120,000) of this appropriation shall be used for any one community ditch. The state engineer may enter into cooperative agreements with the owners or commissioners of ditch associations to ensure that the work is done in the most efficient and economical manner and may contract with the federal government or any of its agencies or instrumentalities that provide matching funds or assistance. No state funds other than loans may be used to meet the association's twenty percent share of the total cost of the project.

The appropriations to the irrigation works construction fund of the state engineer include grants, in such amount as determined by the interstate stream commission, for construction, improvement, repair and protection from floods of dams, reservoirs, ditches, flumes and appurtenances of community ditches in the state on Indian land, whether pueblo or reservation.

The interstate stream commission's authority to make loans for irrigation improvements includes five hundred thousand dollars (\$500,000) for loans to acequias, irrigation and conservancy districts. The interstate stream commission's authority also includes five hundred thousand dollars (\$500,000) for loans to irrigation districts, conservancy districts and soil and water conservation districts for re-loan to farmers for implementation of water conservation improvements.

None of the money appropriated to the state engineer for operating or trust purposes shall be expended for primary clearing of vegetation in a phreatophyte removal project, except insofar as is required to meet the terms of the Pecos river compact between Texas and New Mexico. However, this prohibition shall not apply to removal of vegetation incidental to the construction, operation or maintenance for flood

control or carriage of water or both.

The general fund and other state funds appropriation to the state engineer in the contractual services category is contingent upon the state engineer including performance measures in its contracts to increase contract oversight and accountability. The appropriation is further contingent on the preparation and presentation of a report on contractors' purposes and performance compliance to the legislative finance committee prior to October 1, 2006.

The internal services funds/interagency transfers appropriations to the interstate stream compact compliance and water development program of the state engineer in the other category include eighty-two thousand three hundred dollars (\$82,300) from the game protection fund for Eagle Nest dam operation. Any unexpended balance remaining at the end of fiscal year 2007 from this appropriation shall revert to the game protection fund.

Revenue from the sale of water to United States government agencies by New Mexico resulting from litigation settlement between New Mexico and the United States implemented by the conservation water agreement dated June 29, 2001, and from contractual reimbursements associated with state engineer use of the revenue is appropriated to the state engineer for use as required by the conservation water agreement.

The interstate stream commission's authority to make loans from the irrigation works construction fund includes two million dollars (\$2,000,000) to irrigation districts, acequias, conservancy districts and soil and water conservation districts for purchase and installation of meters and measuring equipment. The maximum loan term is five years.

funds to provide an average five percent salary increase for all teachers, an average nine and one-half percent salary increase for educational assistants and an average five percent salary increase for other instructional staff and other licensed and nonlicensed staff, effective on the first full pay period after July 1, 2006. Prior to the approval of a school district's or a charter school's budget, the secretary of public education shall verify that each school district or charter school is providing an average five percent salary increase for all teachers and other licensed school employees; an average five percent salary increase for nonlicensed school employees, except educational assistants; and an average nine and one-half percent salary increase for educational assistants.

The general fund appropriation for the state equalization guarantee distribution contains sufficient funds to implement the forty-five thousand dollar (\$45,000) minimum salary for level three-A teachers. The secretary of public education shall verify that school districts and charter schools have implemented the salary increases for teachers prior to implementing the minimum salaries for level three-A teachers.

The secretary of public education, in collaboration with the department of finance and administration, office of educational accountability, shall ensure all level three-A teachers receiving salary increases under the three-tiered minimum salary have been evaluated under the tiered licensure evaluation system and have the professional competencies of level three-A teachers. The secretary of public education shall withhold funding for the minimum salary for any teacher who has not been evaluated from the public school district distribution.

The general fund appropriation for the state equalization guarantee distribution contains sufficient funding to provide a three-quarter percent increase in the employer contribution to the educational retirement fund.

For the 2006-2007 school year, the state equalization guarantee distribution contains sufficient funding for school districts to implement a formula-based program for the first time. Those districts shall use current year membership in the calculation of program units for the new formula-based program.

The general fund appropriation to the state equalization guarantee distribution reflects the deduction of federal revenues pursuant to Paragraph (2) of Subsection C of Section 22-8-25 NMSA 1978 that includes payments commonly known as "impact aid funds" pursuant to 20 USCA 7701 et seq., and formerly known as "PL874 funds".

The general fund appropriation to the public school fund shall be reduced by the amounts transferred to the public school fund from the current school fund and from the federal Mineral Lands Leasing Act receipts otherwise unappropriated.

Section 10. CERTAIN FISCAL YEAR 2007 BUDGET ADJUSTMENTS AUTHORIZED. --

A. As used in this section and Section 9 of the General Appropriation Act of 2006:

(1) "budget category" means an item or an aggregation of related items that represents the object of an appropriation. Budget categories include personal services and employee benefits, contractual services, other and other financing uses;

(2) "budget increase" means an approved increase in expenditures by an agency from a specific source;

(3) "category transfer" means an approved transfer of funds from one budget category to another budget category, provided that a category transfer does not include a transfer of funds between divisions; and

(4) "program transfer" means an approved transfer of funds from one program of an agency to another program of that agency.

B. Pursuant to Sections 6-3-23 through 6-3-25 NMSA 1978, those budget adjustments specified in this section are authorized for fiscal year 2007.

C. In addition to the specific category transfers authorized in Subsection E of this section and unless a conflicting category transfer is authorized in Subsection E of this section, all agencies, including legislative agencies, may request category transfers among personal services and employee benefits, contractual services and other, except that notwithstanding the ten-day requirement of

Subsection B of Section 6-3-25 NMSA 1978, no request, made prior to October 1, 2006 for a category transfer shall go into effect until the earliest of the following:

(1) thirty-five calendar days after the category transfer request is filed with the director of the legislative finance committee pursuant to Subsection A of Section 6-3-25 NMSA 1978; or

(2) the day after the category transfer request is reviewed by the legislative finance committee or a subcommittee of the legislative finance committee.

D. Unless a conflicting budget increase is authorized in Subsection E of this section, a program with internal services funds/interagency transfers appropriations or other state funds appropriations that collects money in excess of those appropriated may request budget increases in an amount not to exceed five percent of its internal services funds/interagency transfers or other state funds appropriation contained in Section 4 of the General Appropriation Act of 2006. To track the five percent transfer limitation, agencies shall report cumulative budget adjustment request totals on each budget adjustment request submitted. The department of finance and administration shall certify agency reporting of these cumulative totals.

E. In addition to the budget adjustment authority otherwise provided in the General Appropriation Act of 2006, the following agencies may request specified budget adjustments:

(1) the New Mexico compilation commission may request budget increases from other state funds for publishing costs associated with subscriptions, supreme court opinions and other publications;

(2) the judicial standards commission may request budget increases from other state funds up to twenty-five thousand dollars (\$25,000) of funds received from trial cost reimbursement imposed by the supreme court on a respondent as part of the court's imposition of discipline on that respondent;
