

Fiscal impact reports (FIRs) are prepared by the Legislative Finance Committee (LFC) for standing finance committees of the NM Legislature. The LFC does not assume responsibility for the accuracy of these reports if they are used for other purposes.

Current FIRs (in HTML & Adobe PDF formats) are available on the NM Legislative Website (legis.state.nm.us). Adobe PDF versions include all attachments, whereas HTML versions may not. Previously issued FIRs and attachments may be obtained from the LFC in Suite 101 of the State Capitol Building North.

SUMMARY

Synopsis of Bill

House Joint Memorial 33 requests the Department of Public Safety to form a plan to obtain and use for emergency services geographic information system address and digital mapping data available to local governments in the state in enhanced 911 service areas. The joint memorial requests the Department of Public Safety provide a written copy of the plan to the appropriate legislative interim committee by December 1, 2006 and that written copies of the plan be filed in duplicate with the Legislative Council Service library.

FISCAL IMPLICATIONS

DPS states the proposed joint memorial has no discernable fiscal impact.

SIGNIFICANT ISSUES

DPS reports the department will support the use of digital mapping data when the data is available from all counties. DPS states the department understands contractors are working with counties on digital mapping data. DPS reports upon completion of the all counties updating their digital mapping data, DPS can utilize this data if compatible into the computer-aided dispatch system. DPS states the department will collaborate with the Department of Finance Administration's Local Government Division to acquire completed digital mapping data. DPS reports access to updated maps and data ensures the safety of officers and citizens of New Mexico.

PERFORMANCE IMPLICATIONS

DPS states developing a plan at this point would not be an effective and efficient use of tax pay dollars, since all counties do not have digital mapping data available.

ADMINISTRATIVE IMPLICATIONS

DPS reports the information technology staff will need to utilize already limited personnel resources in the development and discussion of this plan. DPS estimates around several individuals would have to commit extensive time to this matter.
