SUMMARY

Synopsis of Bill

House Bill 142 appropriates \$200,000 from the General Fund to the Board of Regents of New Mexico State University for the purpose of the College Assistance Migrant Program (CAMP).

FISCAL IMPLICATIONS

The appropriation of \$200,000 contained in this bill is a recurring expense to the General Fund. Any unexpended or unencumbered balance remaining at the end of FY 08 shall revert to the General Fund. This program was submitted as a funding request to NMHED by NMSU but was not included in the Department's FY08 funding recommendation.

HED reports that the program is approaching the end of its fifth year and final budget period. There will be a shortage in funds to continue the program for the 2007-08 academic year. CAMP will be reapplying for federal funding in February 2007 for continuation for another five years,

but the determination of award will not be known until September or October 2007.

SIGNIFICANT ISSUES

NMSU explains that the CAMP program primarily serves New Mexican local migrant and seasonal farm workers and their families and fulfills the overall goals and objectives of the Office of Migrant Education. This program has been used as a recruitment and retention model for first generation students university-wide. CAMP has also served as a model of the first “living learning community” housed at the University. This program is multi-disciplinary in scope, and CAMP students represent all majors at NMSU.

House Bill 142 would furnish book and supply stipends for each CAMP alumni student as well as provide tutoring services for students. House Bill 142 would additionally provide resources for a full time outreach coordinator, an administrative assistant, as well as a retention advisor.

PERFORMANCE IMPLICATIONS

NMSU and HED assert that since the inception of the program in 2002, NMSU CAMP has served 116 students from various locations in New Mexico. To date NMSU CAMP’s retention rate is 80%, which is higher than NMSU’s overall retention rate. NMSU further contends that CAMP has also generated over a million dollars in tuition and housing revenue since the program’s inception in the Spring of 2003.
