SUMMARY

Synopsis of Bill

House Bill 346 permits same-day registration at primary and general elections.

This bill allows same-day registration and voting if the qualified elector is not registered to vote and is at the polling place for the precinct in which the qualified elector resides.

The qualified elector shall be allowed to complete a certificate of registration and cast a ballot; provided the qualified elector presents a current and valid photo identification card, utility bill, bank statement, government check, paycheck, student identification card or other government document, including identification issued by an Indian nation, tribe or pueblo, that shows the name and address of the applicant and signs or marks both the signature roster and checklist of registered voters

If the qualified elector is not registered to vote and is at a polling place for a precinct where the qualified elector does not reside, the qualified elector shall be allowed to sign an affidavit of eligibility and cast a provisional paper ballot; provided the polling place is within the county in which the qualified elector resides and the qualified elector presents proper identification as shown above.

Once the qualified elector is registered to vote, the election clerks in charge of the signature rosters shall add the voter's name and address in ink to the signature roster on the line immediately following the last entered voter's name.

FISCAL IMPLICATIONS

The SOS states that for best implementation, polls should be wired to a central computer system. Counties do not currently have the infrastructure or functionality necessary for optimal implementation of election day registration.

SIGNIFICANT ISSUES

One of the most cherished principles in this country is the right to vote. This bill will make voting in elections more accessible and allow individuals who are eligible to vote, but have not registered previously to participate in the election process.

Proponents argue that same-day voter registration increases voter turnout, opponents argue that the process encourages election fraud, increases expense, and increases the administrative burden on poll workers.

ADMINISTRATIVE IMPLICATIONS

The SOS is interested in ensuring the preferred infrastructure at the county level is in place before attempting to implement election day registration.

RELATIONSHIP

HB 346 relates to HB 394. HB 346 requires the qualified elector to produce more identification.
