SUMMARY

Synopsis of Bill

Senate Bill 1091 seeks to appropriate \$200,000 from the general fund to the Department of Game and Fish for expenditure in fiscal year 2008 for wildlife education programs and wildlife rehabilitation. Any unexpended or unencumbered balance remaining at the end of fiscal year 2008 shall revert to the general fund.

FISCAL IMPLICATIONS

DGF indicates that the appropriation of \$200,000 for wildlife education and wildlife rehabilitation would be used to expand upon activities and programs currently conducted by the Department of Game and Fish. Further, that although the bill does not specify which programs or rehabilitators should receive funding, DGF could use a portion of the funding as match for certain Federal funds. This money will be used to provide goods and/or services during the fiscal year, not to fund personnel.

SIGNIFICANT ISSUES

EMNRD indicates that the funding proposed in SB 848 would support programming provided by DGF to provide wildlife education and rehabilitation throughout the state. DGF currently coordinates a statewide Aquatic Education program, providing many successful fishing and aquatic education clinics to participants of all ages. State Parks Division is in partnership with DGF in these endeavors at state parks.

EMNRD adds that the funding proposed in SB 848 could help DGF expand existing and new wildlife education program offerings, which would be of benefit to both New Mexicans and to wildlife resources. Wildlife rehabilitation is also an important service offered by DGF and this funding could provide for stewardship of many resources throughout the state. DGF also offers Project Wild and hunter education courses that could be augmented through SB 848, enhancing hunter safety and resource stewardship.

CONFLICT, DUPLICATION, COMPANIONSHIP, RELATIONSHIP

Duplicates HB943 and SB848

TECHNICAL ISSUES

DGF notes that the Department of Game and Fish does not engage in wildlife rehabilitation as it lacks the physical facilities and the technical and professional expertise necessary to conduct this specialized activity. This appropriation would be used to continue at an expanded pace funding of existing rehabilitation facilities. Such specialized facilities include the Wildlife Center in Espanola and Wildlife Rescue, Inc., in Albuquerque.

WHAT WILL BE THE CONSEQUENCES OF NOT ENACTING THIS BILL

DGF suggests that wildlife education and rehabilitation efforts would continue, but at a slower pace than if this money is made available. Fewer injured birds will be recovered and released to the wild.
