

Fiscal impact reports (FIRs) are prepared by the Legislative Finance Committee (LFC) for standing finance committees of the NM Legislature. The LFC does not assume responsibility for the accuracy of these reports if they are used for other purposes.

Current and previously issued FIRs are available on the NM Legislative Website ([www.nmlegis.gov](http://www.nmlegis.gov)) and may also be obtained from the LFC in Suite 101 of the State Capitol Building North.

## FISCAL IMPACT REPORT

### APPROPRIATION (dollars in thousands)

Appropriation		Recurring or Nonrecurring	Fund Affected
FY14	FY15		
	NFI		

(Parenthesis ( ) Indicate Expenditure Decreases)

Relates to HB 25,  
Duplicates Appropriation in the General Appropriation Act

### SOURCES OF INFORMATION

LFC Files

No Response

New Mexico State University (NMSU)

### SUMMARY

#### Synopsis of Bill

House Memorial 32 requests that the Water Resources Research Institute (WRRI) present water policy options, including efficiency, watershed restoration and desalination, to the interim committee responsible for water and natural resources by December 2014.

### FISCAL IMPLICATIONS

No fiscal impact.

### SIGNIFICANT ISSUES

WRRI was created in 1963 to support water resource research to improve the state's water management. With the severe drought conditions that continue to prevail in New Mexico, management of water resources becomes more critical. According to OSE analysis, WRRI has an aggressive plan to develop a statewide water budget, assess brackish groundwater, research hydraulic fracturing extraction techniques, and examine desalination technologies.

**DUPLICATION, RELATIONSHIP**

House Bill 25 appropriates \$2 million in non-reverting funds from the general fund to NMSU to support WRRI operations.

Senate Bill 138 establishes a working group to conduct a study and complete a report on water supply, water demand, and related issues in New Mexico.
