House Memorial 95 (HM95) calls for the interim committee dealing with water and natural resources to receive testimony regarding the impact of electric power rates on the energy sector and economic development opportunities in the state. The interim committee should report on the testimony and provide recommendations by December 1, 2017.

The New Mexico Energy Roadmap Project will be exploring many energy related issues in an all-inclusive look at the state's energy industries. The energy roadmap project development will be from spring 2017 through January 2018, running in parallel to the legislative testimony and recommendations proposed under HM95.
