#### **SUMMARY**

### Synopsis of Bill

Senate Finance Committee Substitute for Senate Bill 94 authorizes the issuance of general obligation bonds (GOB) totaling \$165.3 million. The bill proposes four bond issues including capital expenditures for senior citizen facilities statewide (\$10.7 million); for library resource acquisitions (\$12.8 million); for higher education facilities, special school and tribal school capital improvements and acquisitions (\$135.9 million); and public school bus replacement (\$6 million). The bill contains an emergency clause. A listing of the projects funded in this bill is attached.

### FISCAL IMPLICATIONS

According to revenue estimators, general obligation bond (GOB) capacity is approximately \$165.4 million, or approximately 0.28 percent of the net taxable value of property. Authorizing no more than the stated capacity maintains a flat mil levy. The authorization of approximately \$166 million contained in this bill, including approximately \$703.1 thousand for the cost of issuance of the bonds, is a non-recurring expense to GOB capacity.

Issuance and sale of general obligation bonds requires approval by the electorate in the November 2018 general election. General obligation bonds are payable from ad valorem (property) taxes levied on all property in the state subject to property taxation. The bonds are backed by the full faith and credit of the state.

General obligation bonds are approved for issuance by the State Board of Finance in spring of 2019 following the general election. If ratified by the voters, funds authorized in this bill will be available to the recipients in the spring of 2019.

The state agencies and higher education institutions to which money has been appropriated in this bill shall be responsible for monitoring the projects funded in the bill to ensure compliance with the laws and Constitution of New Mexico and shall cause to be reverted any unexpended or unencumbered balance remaining at the earlier of the third full fiscal year after issuance of the bonds or the termination or completion of the specific project. Reverted funds shall be deposited in the debt service fund established by the state treasurer for the purpose of paying the principal and interest on the state's general obligation bonds.

### **SIGNIFICANT ISSUES**

The Aging and Long Term Services Department (ALTSD) received capital outlay requests totaling \$29.2 million from senior centers statewide. ALTSD and area agencies on aging rated 158 projects statewide by applying criteria and allocating points to prioritize projects in five categories: code compliance, meals and other equipment, vehicles, and construction and major additions. The senior center projects in this bill were recommended in their entirety by ALTSD and the Department of Finance and Administration.

The New Mexico Library Association requested \$17.5 million on behalf of public libraries, public school libraries, academic libraries, and tribal public libraries. Public and tribal libraries will continue to allocate the funding based on county populations and library service areas, as required by regulation. Public school libraries distribute bond funds with a base grant to each public and charter school building with an operating school library, with remaining funds distributed by per capita student count by building. About two-thirds of funding for New Mexico college and university libraries will be distributed based on full-time-equivalent student enrollment and the remaining one-third will be used to collaboratively purchase electronic resources (academic journals, electronic reference books, electronic books, educational films, etc.) for all students regardless of institution or course work, particularly in rural areas.

Institutions of higher education, special schools, and tribal schools requested nearly \$200 million for capital needs statewide. The bill proposes approximately \$135.9 million for infrastructure projects at higher education institutions. Approximately 82 percent of the total funding included in this bill is recommended for higher education institutions, special schools, and tribal schools. The largest projects include the Roosevelt Hall science building at Eastern New Mexico University, Brown Hall at New Mexico Institute of Mining and Technology, modernizing agricultural facilities at New Mexico State University, Clark Hall chemistry building and ROTC complex at the University of New Mexico, Harlan Hall science building at Western New Mexico University, and Ken Chappy Hall at Central New Mexico Community College.

The substitute bill reflects technical language changes as submitted by the staff of higher education institutions and tribal and special schools.

#### Senate Bill 94/SFCS/ec – Page 3

#### RELATIONSHIP

In addition to the \$6 million included in this bill for school bus replacement, the severance tax bond project bill includes \$8 million from revenues from New Mexico's share of the Volkswagen diesel settlement for the same purpose contingent on approval by the New Mexico Volkswagen settlement team.

### **OTHER SUBSTANTIVE ISSUES**

The Higher Education Department held hearings in Las Vegas, Tucumcari, Alamogordo, Los Lunas, and Santa Fe. Post-secondary education institutions, the two special schools, and tribal schools (Dine College, the Institute of American Indian Arts, and Navajo Technical University) presented their capital requests at the hearings.

The proposed projects in the bill for consideration by the full Legislature were based on the following criteria:

- Student, faculty, and public safety
- Project completion
- Funding from other sources
- Project readiness
- Facility condition index
- Instructional & General (I&G) and space utilization
- Full-time student enrollment trends
- Programmatic use of building
- Energy-efficiency standards
