Chapter 16, Section 78, as amended) is amended to read:

"22-8-29. TRANSPORTATION DISTRIBUTIONS--REPORTS--
PAYMENTS.--

A. On the second reporting date and the third reporting date of each year, each local school board of a school district and governing body of a state-chartered charter school shall report to the state transportation director, upon forms furnished by the state transportation director, the following information concerning the school district's or state-chartered charter school's operation on each respective reporting date of the current year:

(1) the number and designation of school bus routes in operation in the school district;

(2) the number of miles traveled by each school bus on each school bus route, showing the route mileage in accordance with the type of road surface traveled;

(3) the number of students, including special education students, transported on each reporting date of the current year and adjusted for special education students on December 1;

(4) the projected number of students to be transported in the next school year;

(5) the seating capacity, age and mileage of each bus used in the school district for student transportation; and

(6) the number of total miles traveled for each school district's or state-chartered charter school's per capita feeder routes.

B. Each local school board of a school district and governing body of a state-chartered charter school maintaining a school bus route shall make further reports to the state transportation director at other times specified by the state transportation director.

C. The state transportation director shall certify to the secretary that the allocations from the transportation distributions to each school district and state-chartered charter school are based upon the transportation distribution formula established in the Public School Code, calculated and distributed for the entire school year using an average of the amounts reported pursuant to Subsection A of this section on the second reporting date and third reporting date of the prior school year, and are subject to audit and verification; provided that for fiscal [~~year~~] years 2022 and 2023, the state transportation director shall use an average of the amounts reported pursuant to Subsection A of this section on the second and third reporting dates of fiscal year 2020.

D. The department shall make periodic installment payments to school districts and state-chartered charter schools during the school year from the transportation distributions, based upon the allocations certified by the

state transportation director."

SECTION 2. Section 22-8-29.1 NMSA 1978 (being Laws 1995, Chapter 208, Section 10, as amended) is amended to read:

"22-8-29.1. CALCULATION OF TRANSPORTATION ALLOCATION.--

A. As used in this section:

(1) "annual variables" means the coefficients calculated by regressing the total operational expenditures from two years prior to the current school year for each school district and state-chartered charter school using the number of students transported and the numerical value of site characteristics; provided that for fiscal [~~year~~] years 2022 and 2023, the coefficients shall be calculated by regressing the total operational expenditures from fiscal year 2019;

(2) "base amount" means the fixed amount that is the same for all school districts and an amount established by rule for state-chartered charter schools;

(3) "total operational expenditures" means the sum of all to-and-from school transportation expenditures, excluding expenditures incurred in accordance with the provisions of Section 22-8-27 NMSA 1978; and

(4) "variable amount" means the sum of the product of the annual variables multiplied by each school district's or state-chartered charter school's numerical value of the school district's and state-chartered charter school's site characteristics multiplied by the number of days of

operation for each school district or state-chartered charter school.

B. The department shall calculate the transportation allocation for each school district and state-chartered charter school.

C. The base amount is designated as product A. Product A is the constant calculated by regressing the total operational expenditures from the two years prior to the current school year for school district or state-chartered charter school operations using the numerical value of site characteristics approved by the department. The legislative education study committee and the legislative finance committee may review the site characteristics developed by the state transportation director prior to approval by the department.

D. The variable amount is designated as product B. Product B is the predicted additional expenditures for each school district or state-chartered charter school based on the regression analysis using the site characteristics as predictor variables multiplied by the number of days.

E. The allocation to each school district and state-chartered charter school shall be equal to product A plus product B. The adjustment factor shall be applied to the calculation.

F. For the 2001-2002, 2002-2003 and 2003-2004 school years, the transportation allocation for each school

district shall not be less than ninety-five percent or more than one hundred five percent of the prior school year's transportation expenditure."

HEC→SECTION 3. TEMPORARY PROVISION.--Notwithstanding the provisions of the Public School Finance Act, for a state-chartered charter school that did not operate a to-and-from school transportation program in fiscal year 2019 or 2020 but did operate a to-and-from school transportation program in fiscal year 2022, the public education department shall use data from fiscal year 2022 to calculate the transportation distribution for fiscal year 2023.←HEC
