Reauthorizations of capital outlay projects range from changing the administering agency or the original purpose of the project, extending the reversion date, or expanding the purpose of the original project. The bill has an emergency clause. *A listing of the projects reauthorized in this bill is attached.*

### FISCAL IMPLICATIONS

The reauthorization of funds contained in this bill do not require new capacity and are a nonrecurring expense to the general fund, severance tax bond (STB) fund, or other state funds. Any unexpended balances remaining at the end of the fiscal year as designated in the bill shall revert to the originating funding source three months after the reversion date.

Section 2 (C) of the bill provides that the balance of appropriations made from the general fund or other state funds to the Indian Affairs Department or the Aging and Long-Term Services Department for a project located on lands of an Indian nation, tribe, or pueblo shall revert to the tribal infrastructure project fund.

For the purpose of the reauthorizations contained in this bill, "unexpended balance" is defined as the remainder of an appropriation after reserving for unpaid costs and expenses covered by binding written obligations to third parties.
