SECTION III: NARRATIVE

BILL SUMMARY

SB 145 makes a one-time, non-reverting, appropriation of \$500 million from the general fund to the New Mexico Housing Trust Fund (NMHTF) for expenditure beginning in fiscal year 2026. Additionally, the bill proposed to set-aside 10% of the appropriation for local governments. The set-aside requires local governments to provide a 3:1 leverage commitment for any funds requested. Any funds unawarded through the set-aside would be released from the restriction after one year.

The legislature established the NMHTF in 2005 to fund the acquisition, building, rehabilitation, preservation, financing, weatherization, and home energy efficiency upgrades for low to moderate income New Mexicans. The New Mexico Mortgage Finance Authority (Housing New Mexico | MFA), as the Trustee of the NMHTF, has established programs, partnerships, and administrative capacity to effectively utilize state funds for housing development, preservation of existing affordable housing, and homeownership programs across the entire state.

FISCAL IMPLICATIONS

The passage of SB 145 would result in a one-time, non-reverting, appropriation of \$500 million from the general fund to the NMHTF. The appropriation does not impact the state operating budget because Housing New Mexico | MFA, as a self-supporting quasi-governmental entity, does not rely on the state for any operational funding.

SIGNIFICANT ISSUES

Need – According to data provided by the Department of Housing and Urban Development (HUD), 30% (236,625) of households in New Mexico have at least one housing problem. A transformative investment to the NMHTF is required to address the housing crisis facing the state. Housing New Mexico | MFA would use this appropriation to mitigate the affordable housing crisis in the state in the following ways:

- Build rental and homeownership housing,
- Supply downpayment assistance,
- Rehabilitate aging housing stock,
- Fund homelessness and homelessness prevention programs,
- Invest in innovative affordable housing projects.

Impact – An investment of \$500 million would allow Housing New Mexico | MFA and its partners to serve an estimated 10,000 New Mexicans in addition to those approximately 20,000 families Housing New Mexico is able to serve currently.

The table below provides an analysis of how a \$500 million appropriation could improve housing opportunities based on the approximate cost of various program types (see “assumptions”). Currently, Housing New Mexico | MFA maximizes its federal resources for affordable housing, meaning transforming the housing landscape requires significant state investment.

Cumulative Total			5,000	\$ 246,000,000	10,100	\$ 496,920,000	15,302	\$ 752,858,400

**For these programs, NMHTF awards are typically part of a larger capital stack, are among layered funding sources or administered as a revolving line of credit. The investment costs shown are an estimate of the portion NMHTF would cover.*

Housing New Mexico | MFA balances NMHTF allocations to programs based on two primary criteria: meeting housing needs throughout the state and maintaining the sustainability of the funding source. Downpayment assistance and rental and single-family housing development are typically administered as loans, generating program income and significant leverage. Housing New Mexico | MFA prioritizes grant funding for programs serving the most vulnerable populations, including those facing or experiencing homelessness as well as very low-income seniors and veterans.

Local Government Set-Aside – Increasingly local governments, urban and rural alike, are seeking to spur affordable housing initiatives. In providing additional funding to the NMHTF through Housing New Mexico | MFA’s proposed appropriation, 10% of the allocation would be set aside for local governments. While local governments are currently eligible to solicit NMHTF funding, the set-aside would ensure that municipalities and counties are guaranteed funding availability. As proposed, local governments would be required to leverage awards made through the set-aside at a rate of 3:1. Additionally, unawarded funds within the set-aside would be released from the set-aside restriction after one-year.

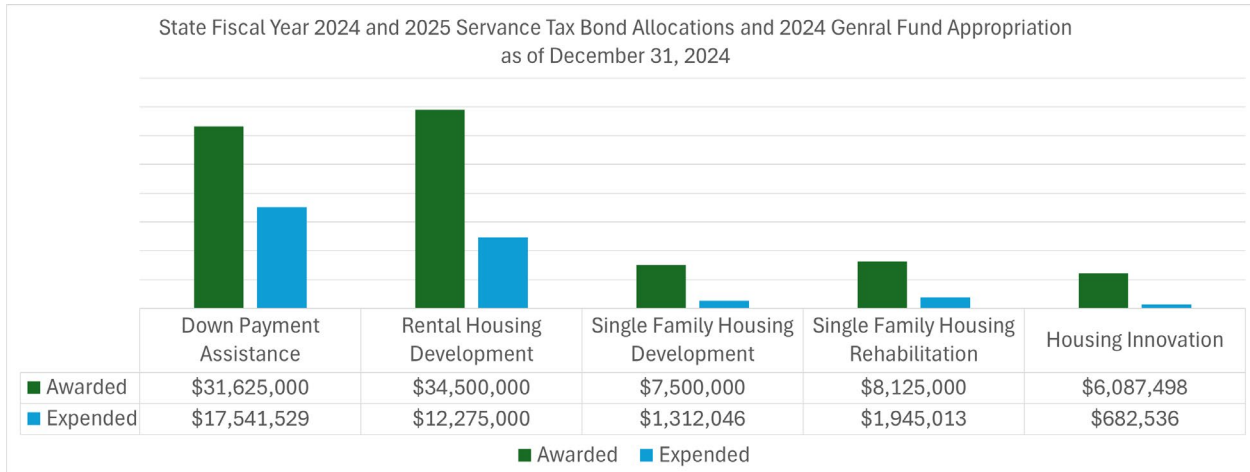

Affordable Housing Defined – Housing is considered affordable when housing costs do not exceed 30% of a household’s income. The MFA Act allows Housing New Mexico | MFA to serve households earning up to 150% area median income (AMI) with the NMHTF. This upper limit helps in providing homeownership opportunities and reaching the “missing middle”. The majority of those assisted with NMHTF are between 30% - 80% AMI.

PERFORMANCE IMPLICATIONS

In the 17 months since funding from the NMHTF severance tax bond earmark legislation became available, Housing New Mexico has allocated 85% to various programs and activities, awarded 73% to grantees, and expended 28% of the \$122.15 million allocations. This includes \$88.57 million from the severance tax bond earmark (state fiscal years 2024 and 2025) and the one-time \$50 million appropriation made available July 1, 2024. These performance metrics demonstrate Housing New Mexico’s capacity to urgently deploy funding and serve households in need..
