Total		\$100	0	\$100	Non	operating

(Parenthesis () Indicate Expenditure Decreases)

Duplicates/Conflicts with/Companion to/Relates to: Duplicates/Relates to Appropriation in the General Appropriation Act

SECTION III: NARRATIVE

BILL SUMMARY

Synopsis:

SB 518 makes two \$50,000 appropriations from the state general fund to the UNM board of regents for expenditure in fiscal year 2026 to support Health Sciences Center (HSC) maternity and infant care programs and the UNMH young children's health center (YCHC).

FISCAL IMPLICATIONS

SIGNIFICANT ISSUES

PERFORMANCE IMPLICATIONS

The appropriations in SB 518 would have a positive impact on YCHC patients. The YCHC is a community-based pediatric clinic that provides comprehensive health services to families with children from birth to young adulthood residing in the southeast heights of Albuquerque. Staff is bilingual Spanish/English in order to better serve the community. Special components of this clinic include home visitation to families with babies 0-36 months, behavioral health services, case management, and outreach activities to local schools and the community center, which includes gang prevention and intervention and other neighboring activities. Networking and collaboration with other community programs is a priority and strength of YCHC. Children with special healthcare needs and their families are offered the opportunity to participate in a "medical home" model of individualized care.
